Eldorado . . .

Eldorado: An Imaginary country abounding in gold, searched for by Spaniards in the sixteenth century. The name now applies to any place where riches can be had easily and quickly.

ALMA MATER

Where The Bold Sundevils
Raise their arms on high,
Asking strength
For brave tomorrows
From the western sky.
Where at Sunrise Mountain
Our hopes and dreams arise,
Here we hail thee,
Alma Mater
Eldorado High.

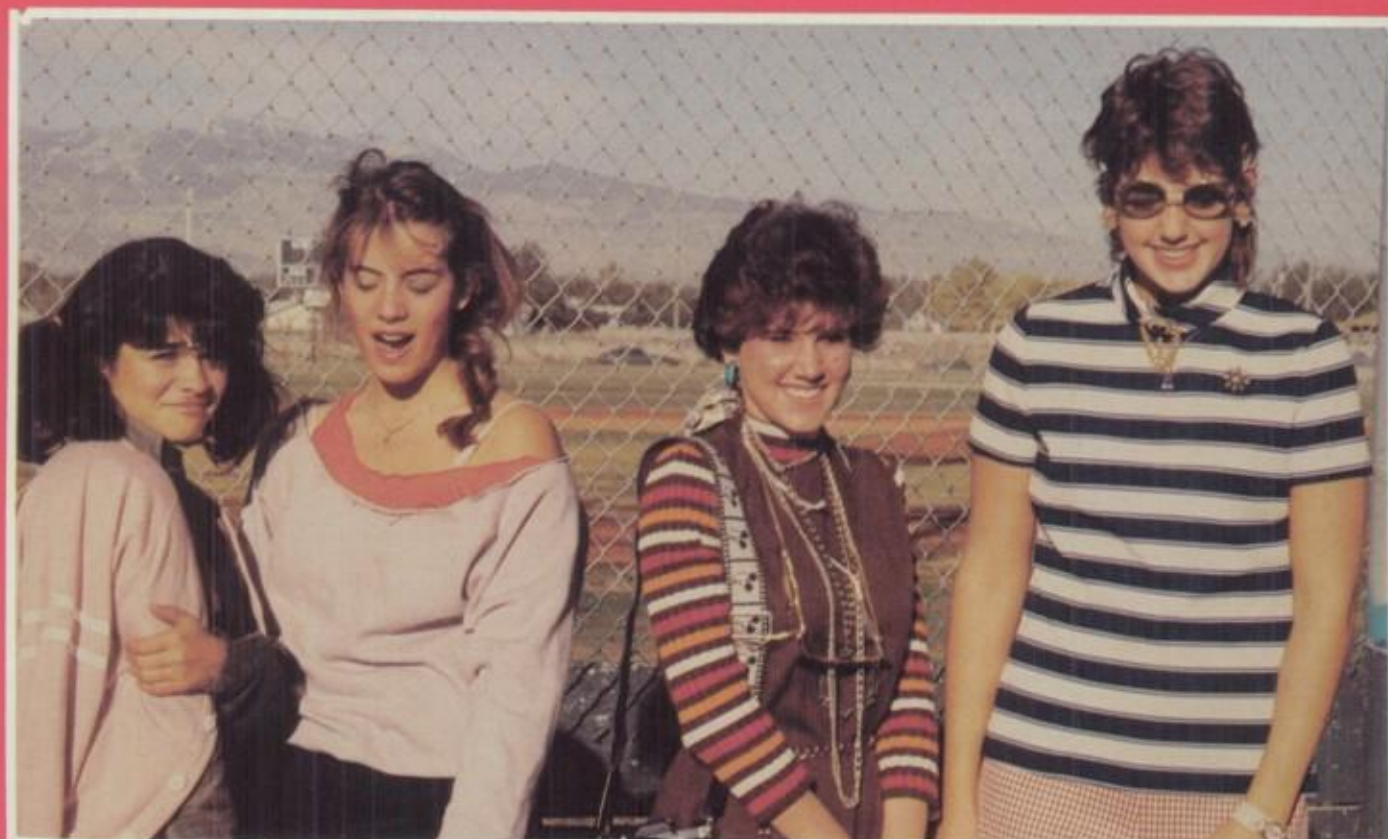

FIGHT SONG

Fight on you Sundevils
 Fight on our team
 Run up the score
 And get on the beam.
 Give them competition, boys
 You play the game and
 We'll make the noise
 Fight on to victory
 Fight on to fame.
 We'll stand to back you
 All through the game.
 Keep our colors flying high
 For a Sundevil victory

YOU LOOK

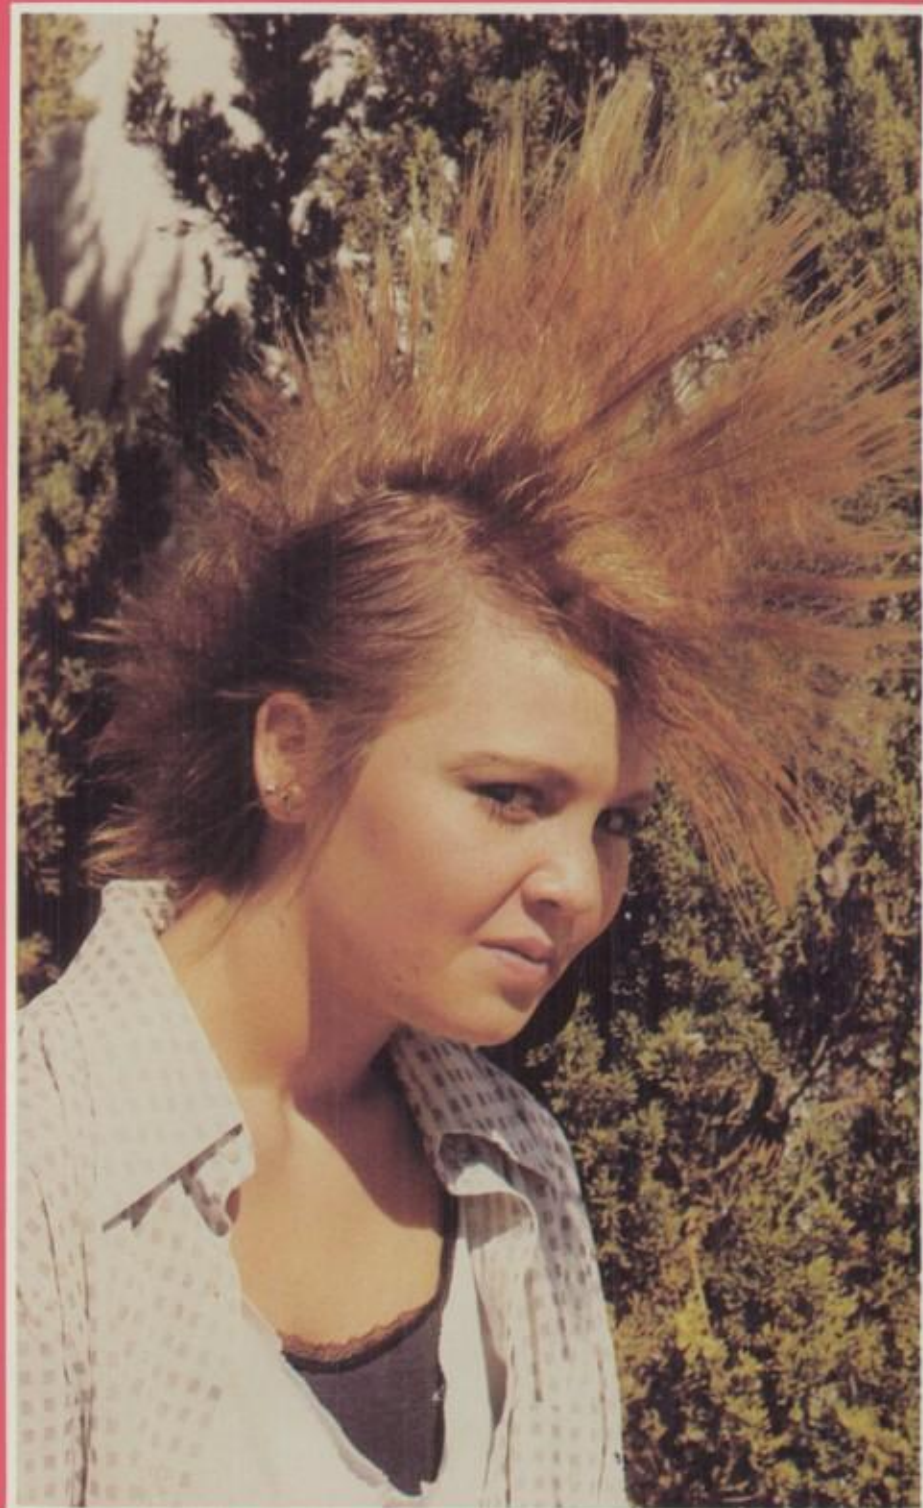

MAAH-VELOUS

Fashion Trends Take Over E.H.S.

At Eldorado, styles and people vary so much that everyone can truly be called "unique". Clothing varies from old to new with the fashion groups including preppies, new wavers, punkers, maudes and heavy metalers. Adding to that, is Eldorado's own specialty of nerds, gangsters, and safari hunters. Who can call himself normal for normal is what one makes it.

Hairstyles are a large part of fashion which ranges from bobs, pixies, mohawks and crops to long hair and the traditional cuts which will always be around.

Everyone agrees that high school students express themselves best through their fashionable clothing and hairstyles. In the end, however, everyone simply looks MAAH-VELOUS!

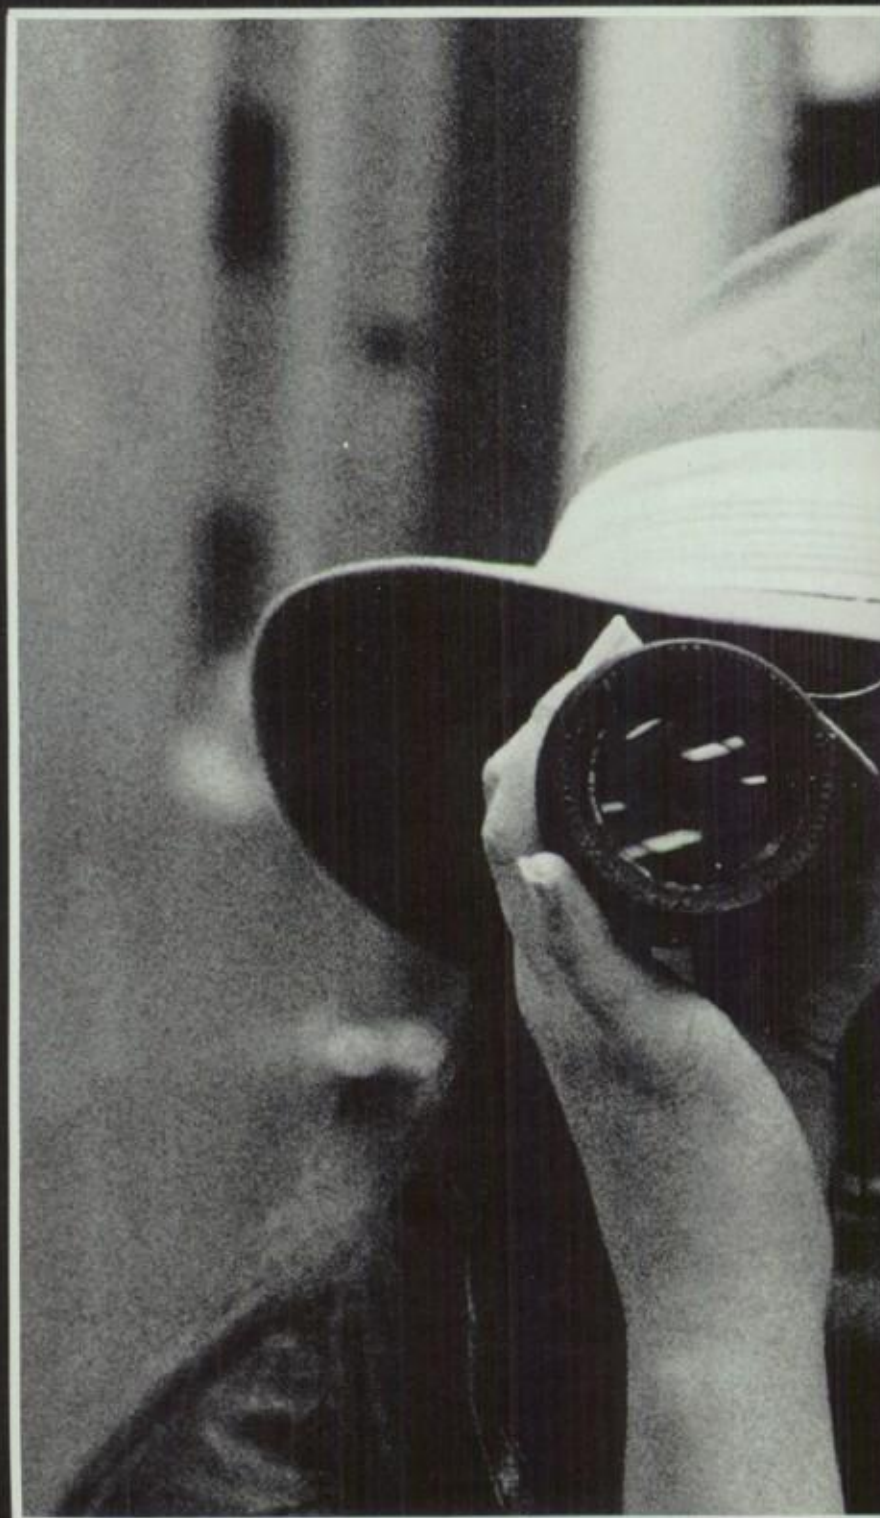

IN
VOGUE

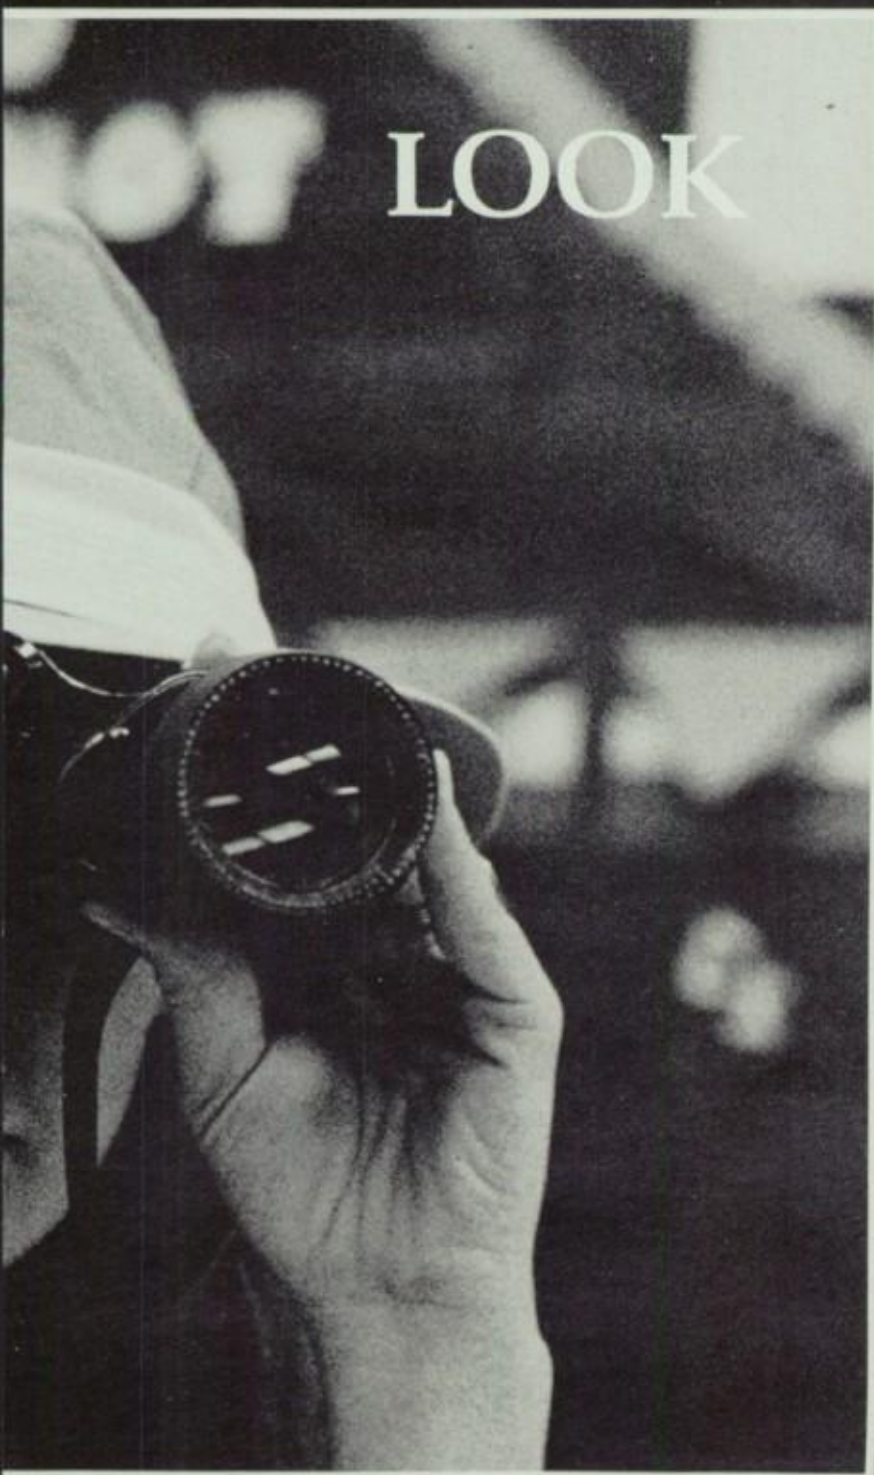

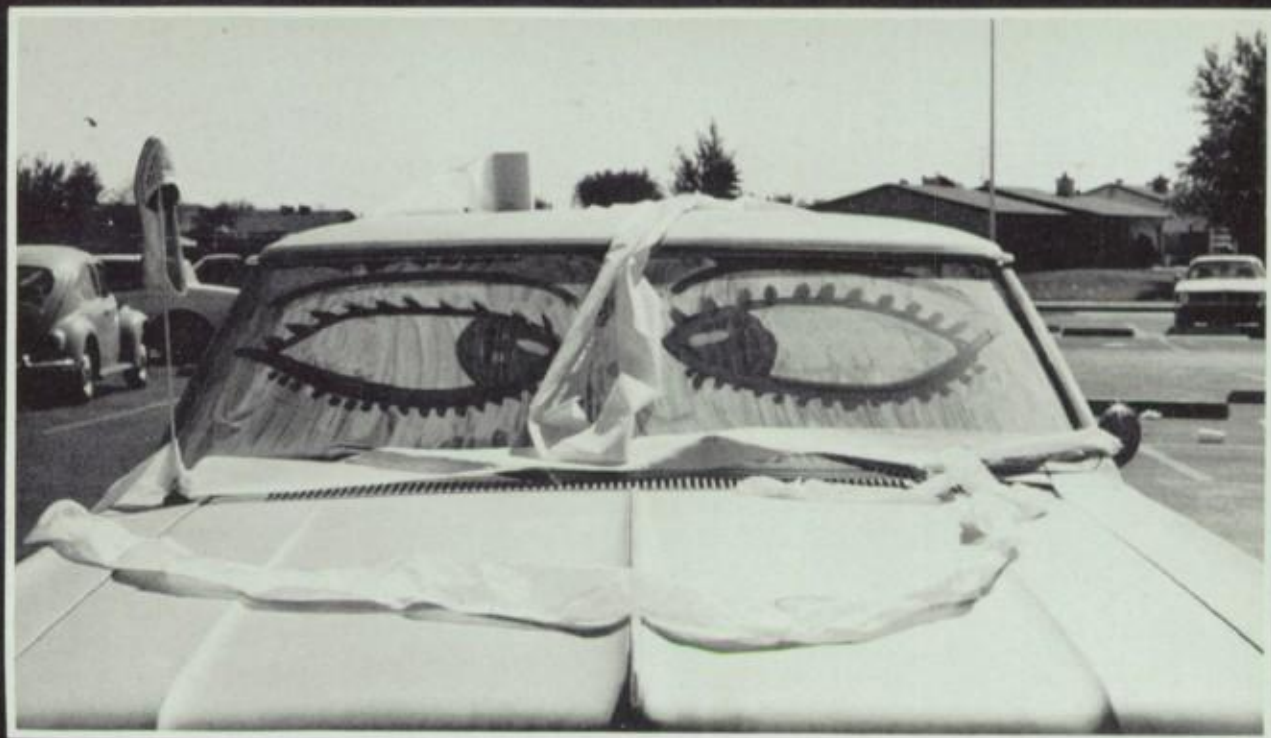

Ooh I Like It When You . . .

No matter what color, size, or shape; eyes are everyone's most attractable feature. Eyes are captivating and alluring, they can attract a playboy or earn an "F" on an exam. Most of all, someone's eyes, when stared into, reveals his inner most thoughts. Eye's reveal every emotion one's feeling, from sadness and a tear to happiness and a sparkle. Lastly, eye's show when someone cares or when they are truly mad, no one can escape the stare of someones eyes. So, in the end if one is curious about another just simply look into his eyes, and his personality, thoughts, and feelings will be staring back.

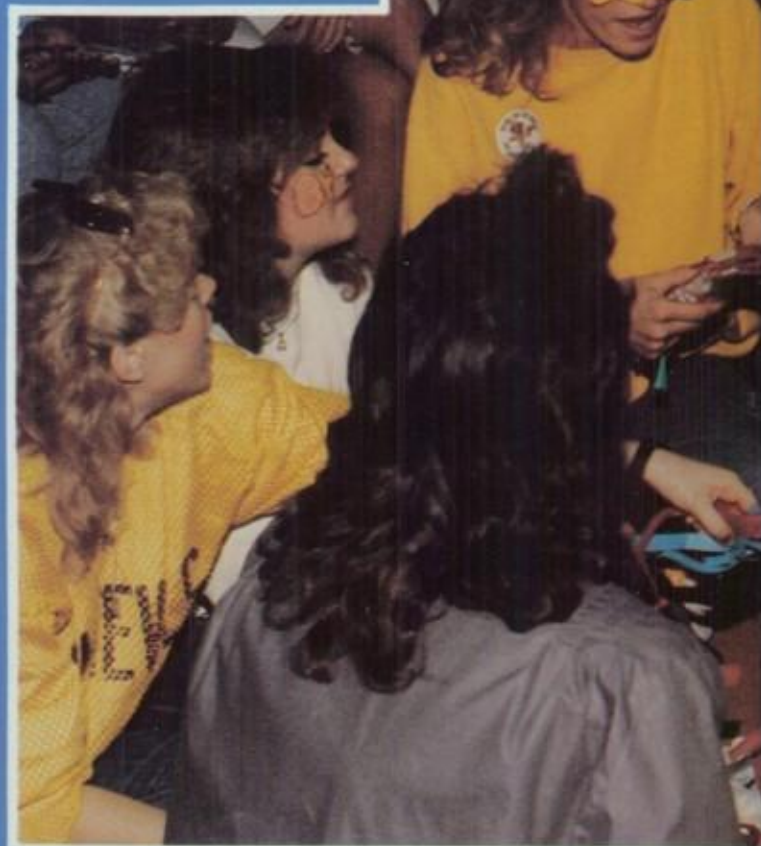

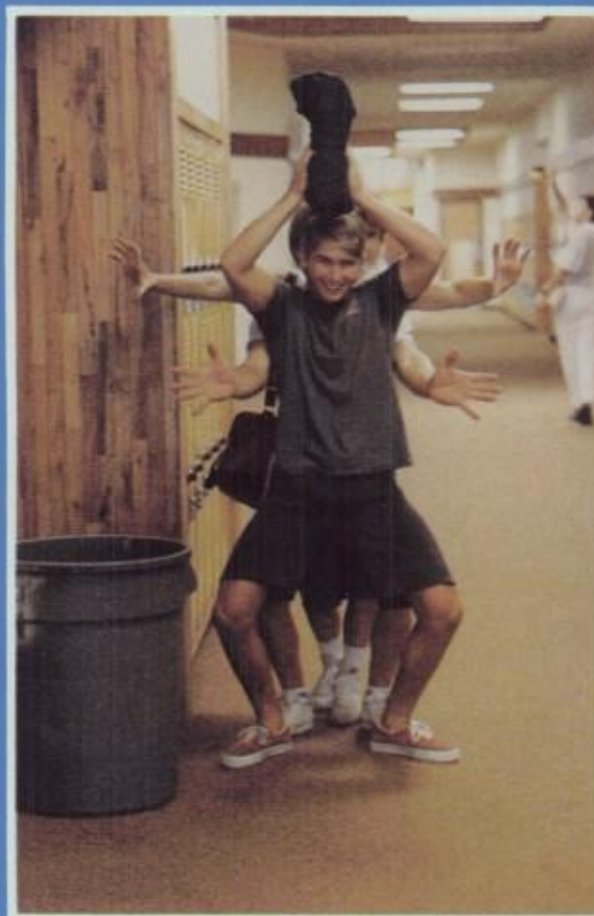

WHEN SCHOOL REMINDS YOU OF . . .

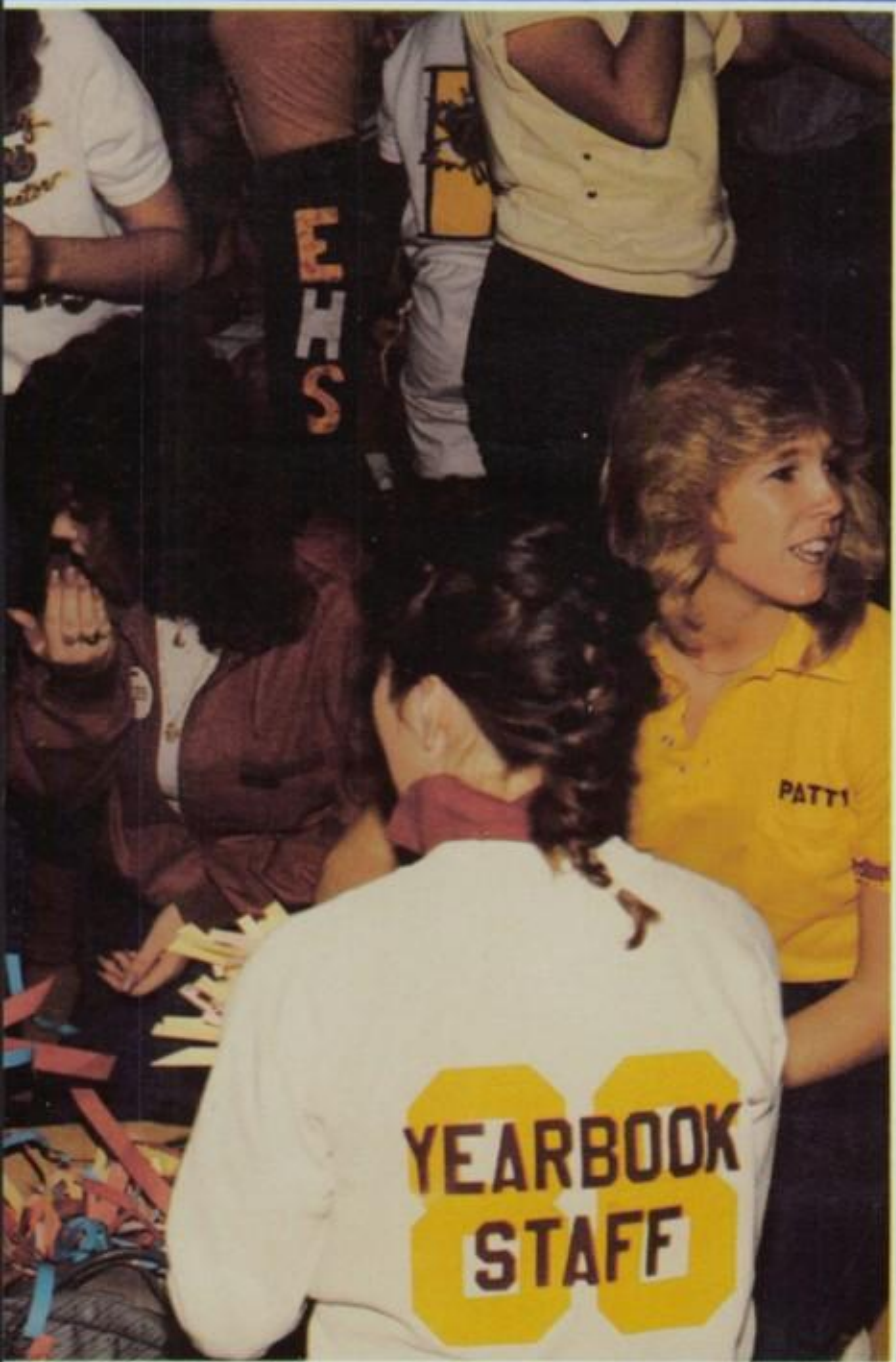

Students Go Nuts!

If one were to examine his life in high school, he would have to conclude that it is definitely insane, incredible, horrible, and any other emotion possible. In high school, students may act immature, stupid and crazy and enjoy every minute of it. This is because high school is not the "real world". Here students are in the twilight zone or mad magazine and no one will forget the experiences high school life brings. One can only hope that through these crazy years, he will always keep a part of that wierd sense of humor inside his heart and memory.

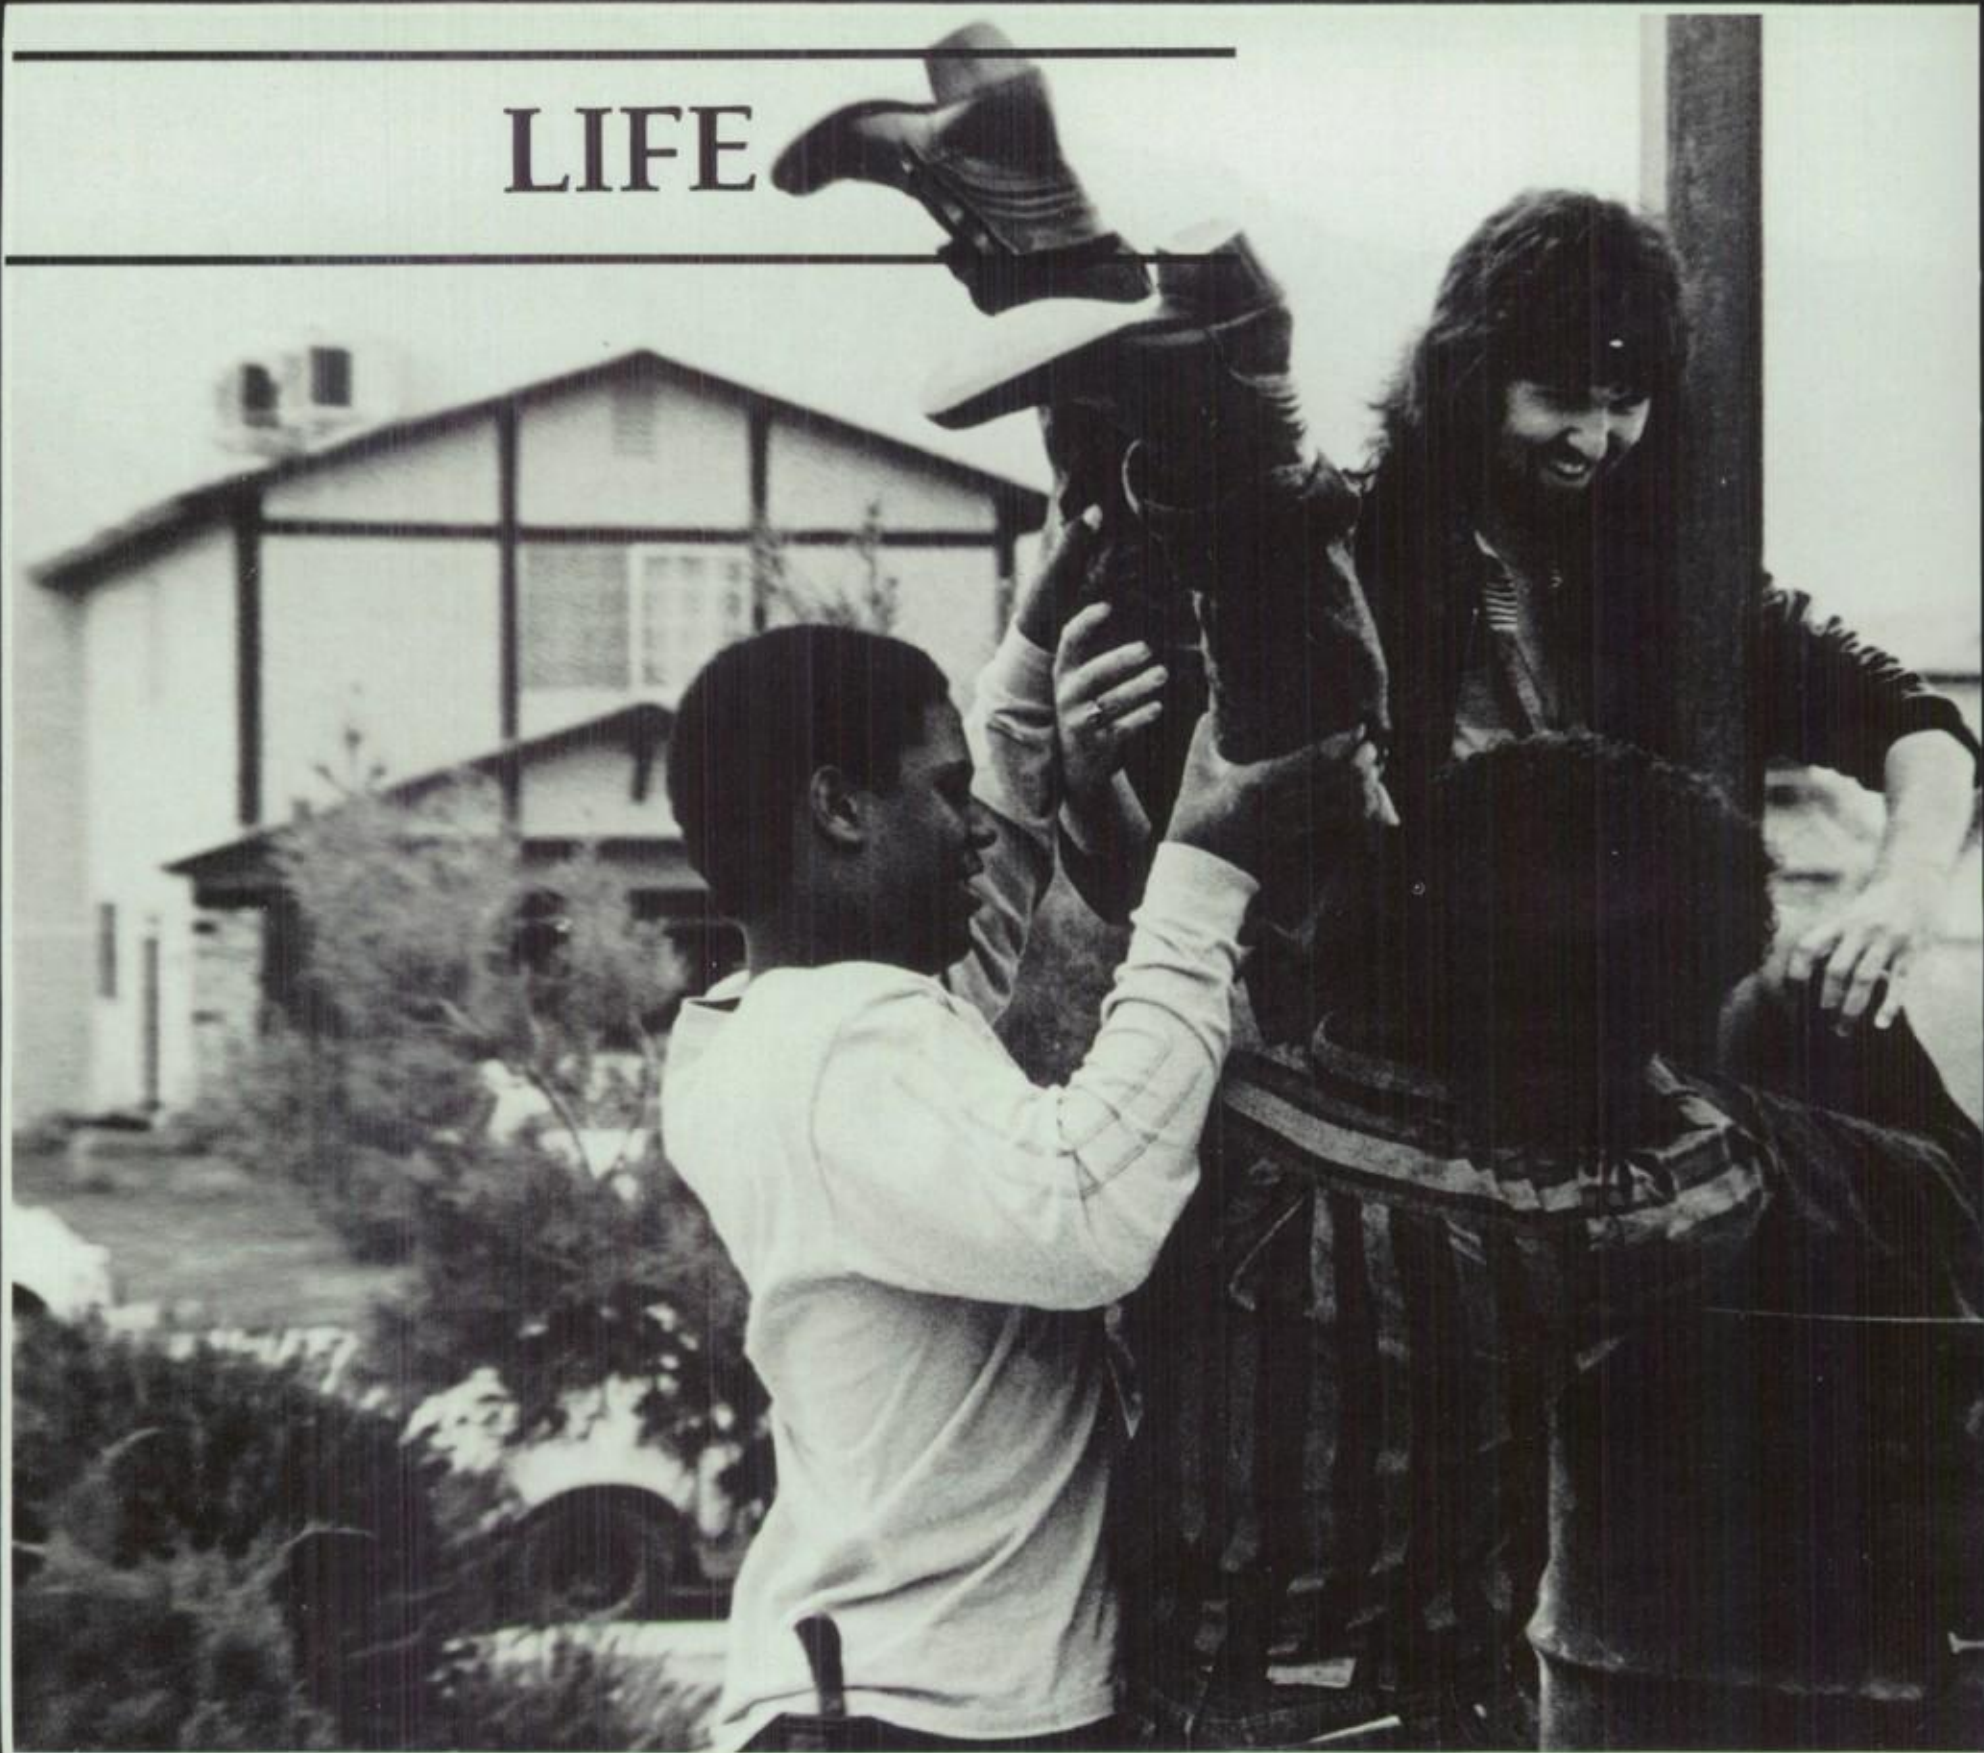

NATIONAL LAMPOON

LIFE

It's a bummer when you go to school and five people are wearing the exact same thing.

It's a bummer when you get pulled over by a policeman right in the school parking lot.

It's a bummer when you try to impress someone by peeling out and crash into a tree or police car.

No one out in this world has never experienced one of those days when nothing goes right and where embarrassment is one's middle name. Some famous bummers are...

"It's a bummer when you're a freshman with your face in a garbage can."

"It's a bummer when it's a hot day and you have an icecream cone that ends up on the sidewalk."

"It's a bummer when you are joking with the guys and they find it funny to throw you in their trunk."

These bummers, although you personally may never see them, happen everyday. Bummers are a fact of life, but the good thing about them is that when they're over, you can tell a friend and laugh.

ADVANTAGES

As a freshman, everyone wonders whether or not he'll ever survive long enough to become a senior, and as he watches in awe he can't wait until that day. "Seniors are so lucky" "Seniors practically rule the school" "Seniors are soo cool" "Seniors are good looking". Finally, he becomes a senior to find out that these advantages are all very true, and that there are some that he had not known existed such as "Seniors are the only ones allowed to pick on Freshmen". Most of all, "Seniors are allowed, if not expected, to act like Freshmen, after all, it is our last year.

THE LAST YEAR

During the final year of high school, more is learned than any other year. Students reach the peak of their maturity and buckle down to brace themselves for the "end" of the year when they must face the real world.

This year is the year they will no longer be shy, but will get up and ask those questions they had before been afraid to ask.

Friends, teachers, and relatives now realize a change has occurred and the students are treated with respect, trust, and are given more responsibility.

Finally, as they remember their former high school years, and their heads swell with pride, they realize that they are merely salmon just beginning the fight upstream.

HERE'S MISSING YOU!

Whenever people think "Senior" they think, "WOW". Of course, this is because all of the good aspects of being a senior are exploited. One part of being a senior is the sadness of it all . . .

The sadness is sitting back some day, looking at all the surroundings and realizing that it will all soon come to an end.

What will be missed most about Eldorado?

FRIENDS: All those wonderful people who could make your day with simply a smile and a hug.

TEACHERS: Just as you realize teachers are human, and that they can help you with problems, academic or personal, you have to leave.

FOOTBALL GAMES: That wonderful excuse to get out of the house and socialize on Friday nights.

TINY: A woman with the voice that can put the fear of God in people, with those famous questions such as, "Do you have a pass young lady?" or "Can I see your pass, sir?"

ASSEMBLIES: A great class cutting experience, and just one more reason for everyone to act like Freshmen as they stand, sit and jump up and down chanting all the while . . . **ELDORADO SUNDEVILS, ELDORADO SUNDEVILS . . . HEY!!!**

SPIRIT, SPIRIT, SPIRIT!

"Seniors",

It's assembly time and everyone is screaming and carrying on as though they were at a rock concert. A look at the stands shows hundreds all acquired in various articles of Maroon and Gold. The football team is announced and the crowd grows even wilder than before. The cheerleaders cheer, the band booms, and the gym rocks.

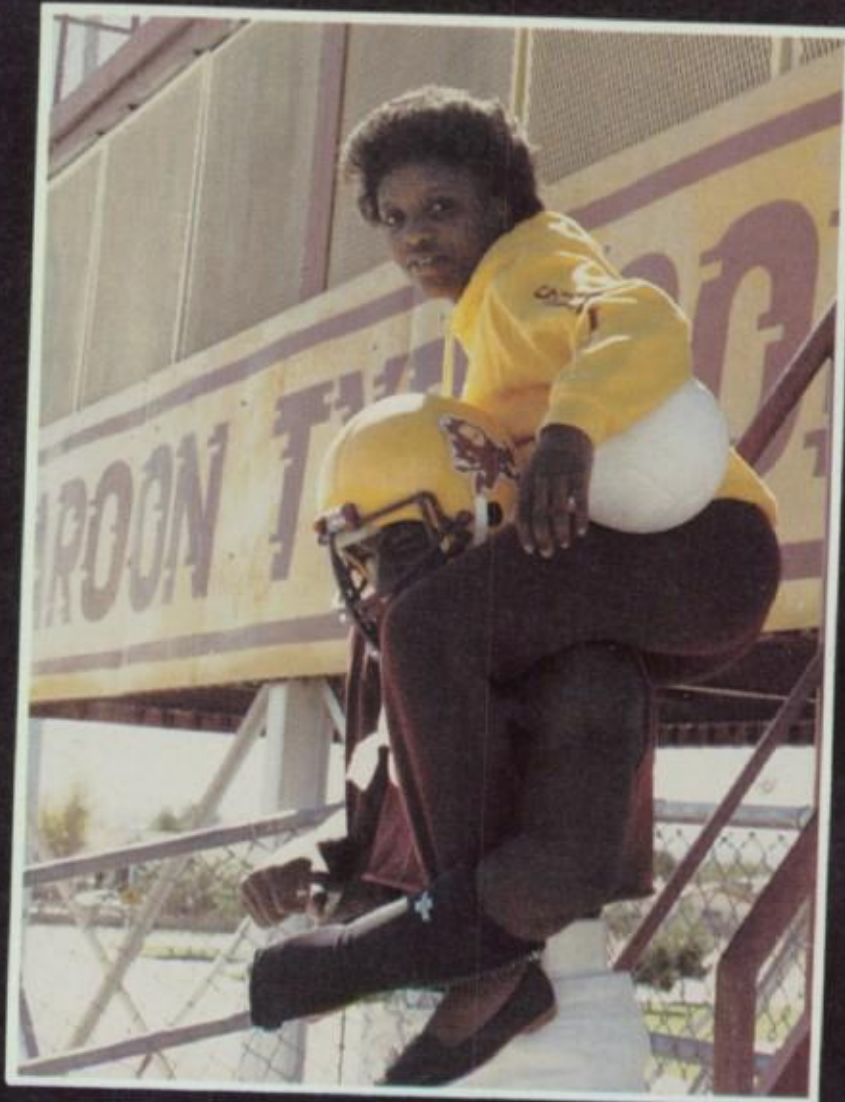

That's Spirit.

It's homecoming week and the halls are all littered with various nerds, mafia hit men, big game hunters, boys dressed up as girls, and girls dressed up as boys.

That's Spirit.

It's graduation and as the last person receives his diploma and reaches his seat, the entire graduating class stands to the applause of the crowd.

That's Spirit.

TRADITION

Tradition: Webster defines it as an inherited pattern of thought or action (a social custom).

However, seniors define it as playing for the cleat, dress up days, Homecoming week—a week filled with spirit and excitement, working on homecoming floats, the homecoming dance itself, and favorite of them all, giving the underclassmen, especially the freshmen, a very, very hard time. As a show of unity, the traditions include the fight song and alma mater, both of which hang proudly in the gym for all to see. The last and most important of all traditions is the Prom. This event not only signifies the end of the year, but the end of High School years for hoped Seniors. It is that in future years, the spirit, pride, and unity will continue. Students, Eldorado is your school stand up and be proud.

SENIOR LIFE EXCITING!

SENIOR LIFE INVITING

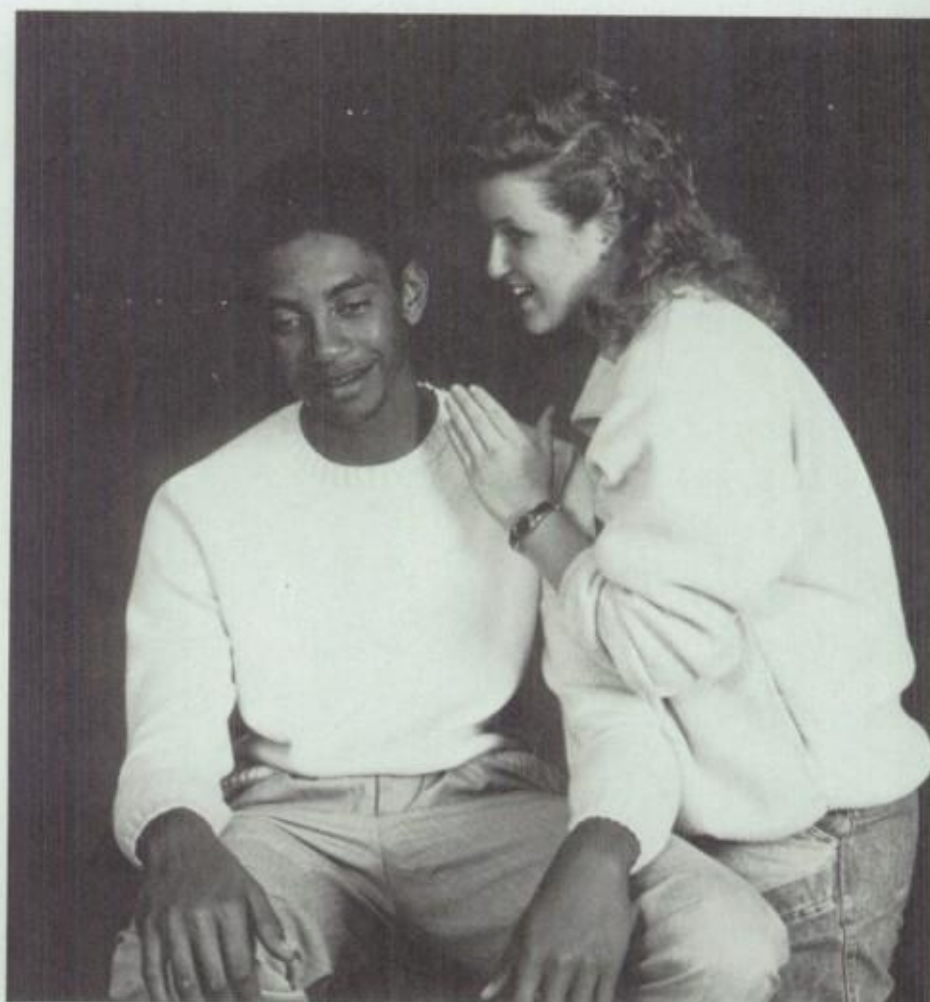

Every year around January or so, a person comes to all the government classes, bringing with them the long awaited "Senior Superlatives". The categories are made up at random. Each senior gets to decide who they feel best suits a category. At the end of the day, the superlatives are collected and the votes are tallied. This is how the winners are decided. On the next six pages, you will see this years superlative winners.

**IN DEDICATION TO
MRS. JEAN BECKSTEAD**

Each person who teaches school should be a disciple of Ralph Waldo Emerson. Emerson, though he disliked collective society, "Society everywhere is in conspiracy against the manhood of every one of its members," had infinite respect for the individual, "Man is his own star." A teacher must have this same outlook. He must be able to see past the horde in the hall undulating slowly and noisily, past the wiggling mass in the classroom talking incessantly and shrilly, past the fickle mob at a ball game shrieking unceasingly and raucously, to the individual, to the one. And looking at the one, the teacher must be able to discern the potential hiding behind indifference, and be willing to prod that potential until it begins to stir. He must be able to probe past all the posing and procrastination and help each student choose the "diadems" and not the "fagots" that each day presents. He must see, as Emerson did, that part of God that is in each pupil. "A man is the facade of a temple wherein all wisdom and all good abide."

To paraphrase the gentle poet and philosopher,

"A teacher knows not what argument
His life to his students' creed has lent,
Both are needed by each one;
Neither is fair or good alone."
With such a creed, a teacher can be happy.

J. Beckstead

Recently, I was asked the question, "How does the yearbook staff decide to whom the yearbook will be dedicated?" As many hundreds of people come and go through this school it would seem to be a tough decision, and it is. When a person dedicates his life to education it automatically means that in exchange for many years of personal education and sacrifice, he will never receive enough recognition, appreciation, salary, respect, or courtesy to make the job worthwhile. Therefore, in my estimation, anyone who decides to be a teacher deserves recognition. This makes the decision even tougher. So, how do we narrow it down? In deciding who is the greatest of the great, the criterion is "who gives above and beyond the call of duty?" When one isn't being paid enough for the time that he is assigned to devote, giving beyond that is clearly a mark of true dedication.

This year we are dedicating the Sunburst yearbook to Jean Beckstead. Jean is one of these special people who gives unselfishly of her time. During the first year that Eldorado was open, Mrs. Beckstead was the advisor for the Sunburst yearbook and also advised The Advocate school newspaper. After turning the newspaper over to another staff member, she continued to advise the school yearbook for several years. She suffered through the labor pains of creating a yearbook for this school for several years. She created a tradition of excellence for the advisors who have followed her. Today, she still spends many after-school hours supervising the Tall Flags. We, the staff, editors, and advisor of the Sunburst yearbook wish to thank Jean Beckstead for her vision of excellence, her selfless gift of time for Eldorado's students, and her unwavering commitment to being a teacher, first, last, and always. Jean, we give you our thanks, our respect, and our love.

omecoming Week

Who let the
crazies out?

"Forever", the theme from this year's Homecoming was celebrated with a week of costumes featuring Mobsters to Nerds, at the end of which, we suffered an 18-20 loss to Valley High School. To end the festivities for the 1985 Homecoming Week was the dance which was held at the Showboat Country Club.

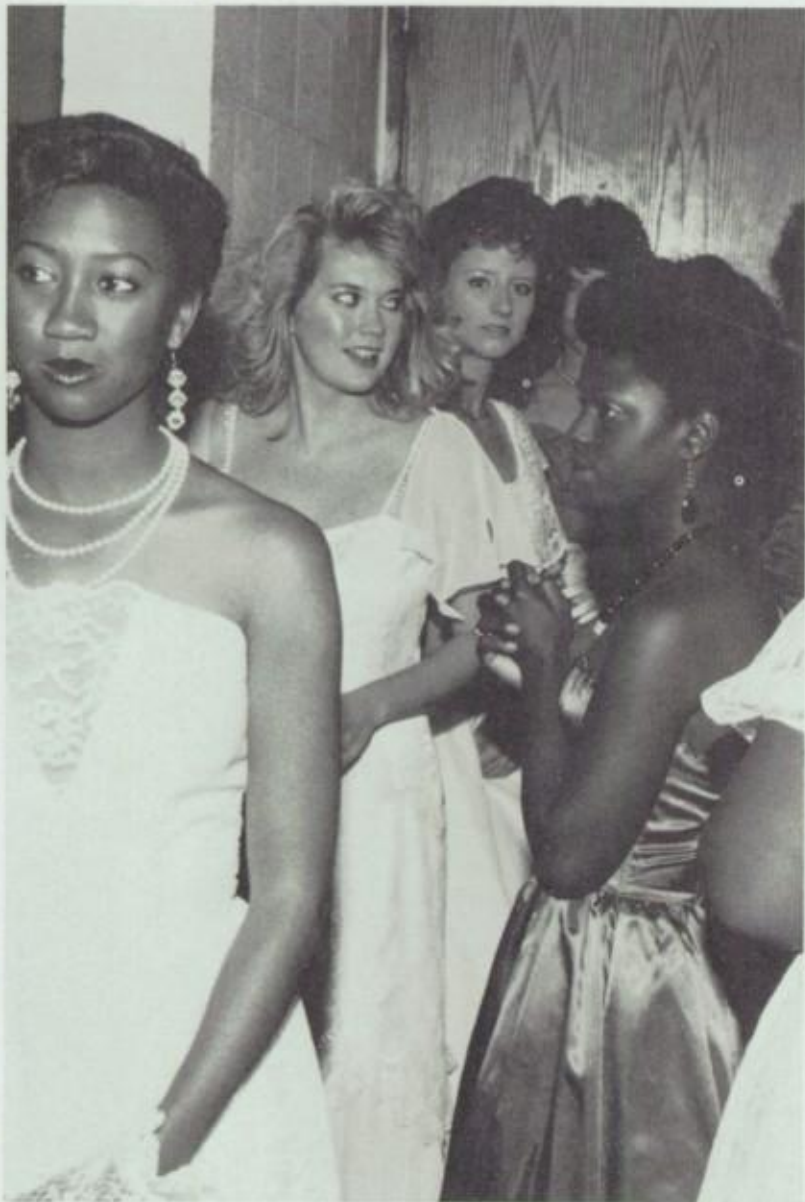

H

omecoming Candidates Assembly

Take a look
at me, now

This year's Homecoming Candidates were more beautiful than ever. You could see the anxiousness in their faces as they waited for the theme song, "Forever" by Kenny Loggins, to be over. When the song was finished, all the candidates got to strut their stuff over the bridge to their seats. When all the candidates had their chance to be seen, they all stood up gracefully and walked through the beautiful arch made of the shining steel sabors of the R.O.T.C. You could see by the faces in the crowd, that everyone was left wondering, "Who will be this year's Homecoming King and Queen?"

LOVE

I love you,
Not only for what you are,
But for what I am
When I am with you.

I love you,
Not only for what
You have made of yourself,
But for what
You are making of me.

I love you
For the part of me
That you bring out;
I love you
For putting your hand
Into my heaped-up heart
And passing over
All the foolish, weak things
That you can't help
Dimly seeing there,
And for drawing out
Into the light
All the beautiful belongings
That no one else had looked
Quite far enough to find.

I love you because you

Are helping me to make
Of the lumber of my life
Not a tavern
But a temple;
Out of the works
Of my every day
Not a reproach
But a song.

I love you
Because you have done
More than any creed
Could have done
To make me good,
And more than any fate
Could have done
To make me happy.

You have done it
Without a touch,
Without a word,
Without a sign.
You have done it
By being yourself.
Perhaps that is what
Being a friend means,
After All.

Get ready
for the world

The Eldorado 1985-86 Homecoming Pre-game show got off to a most exciting start as the lively Sundevils Band marched jauntily ahead of the four lovely and handsome Homecoming Candidates Couples who rode by in hopeful anticipation. Following close behind, were the spectacular class floats, including the class of 85 Alumni. Adding to the spirit of the evening, next in line were our enthusiastic leaders namely "Cheer/Song/Yell," all giving their utmost to show the spectators that Eldorado was "Ready for the World!"

The same excitement and enthusiasm that reached an ear-piercing level during pre-game and dulled somewhat during the game picked up again during half-time and mounted to reach a spectacular crescendo, as the names of the 1985-86 Homecoming Royalty was finally revealed. The ceremonies were then brought to an end as the royal couple rode around the track to the tunes by the Sundevil Band.

Marriage day

A perfect day for a wedding

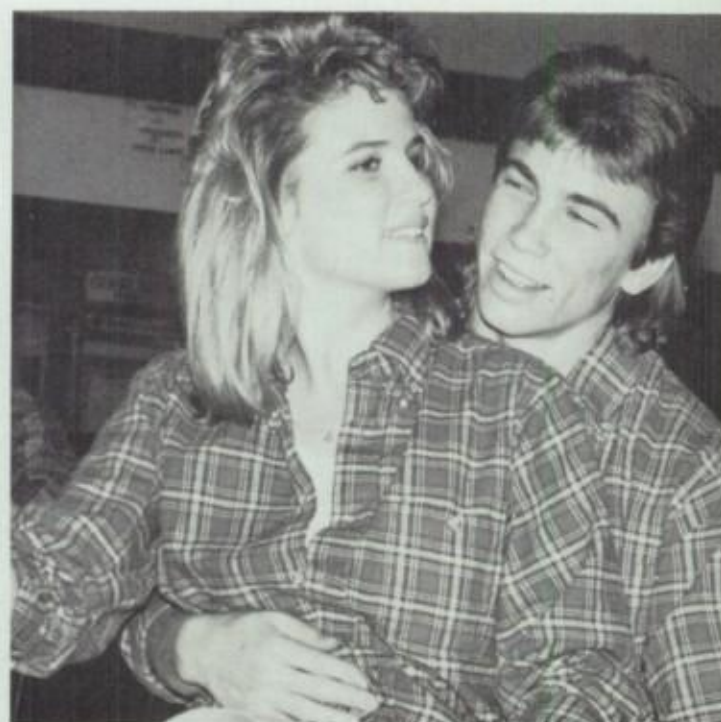

It was a perfect day for a wedding as the two couples exchanged vows and promised to be together for eternity. They sealed their marriages with quick kisses and went off on their honeymoon trip around the school. This was our Sundevil Wedding, a tradition here at Eldorado for many years. This year's ceremony was a double wedding with Mike Lauterborn marrying Dawn Jensen and Todd Strickland marrying Lori Hanson. Dresses were donated by Bells and Brides and flowers by Kings Flowers. Besides being a great deal of fun, the wedding gives students in family life classes a chance to plan, participate in and attend a real, (but not so real) wedding.

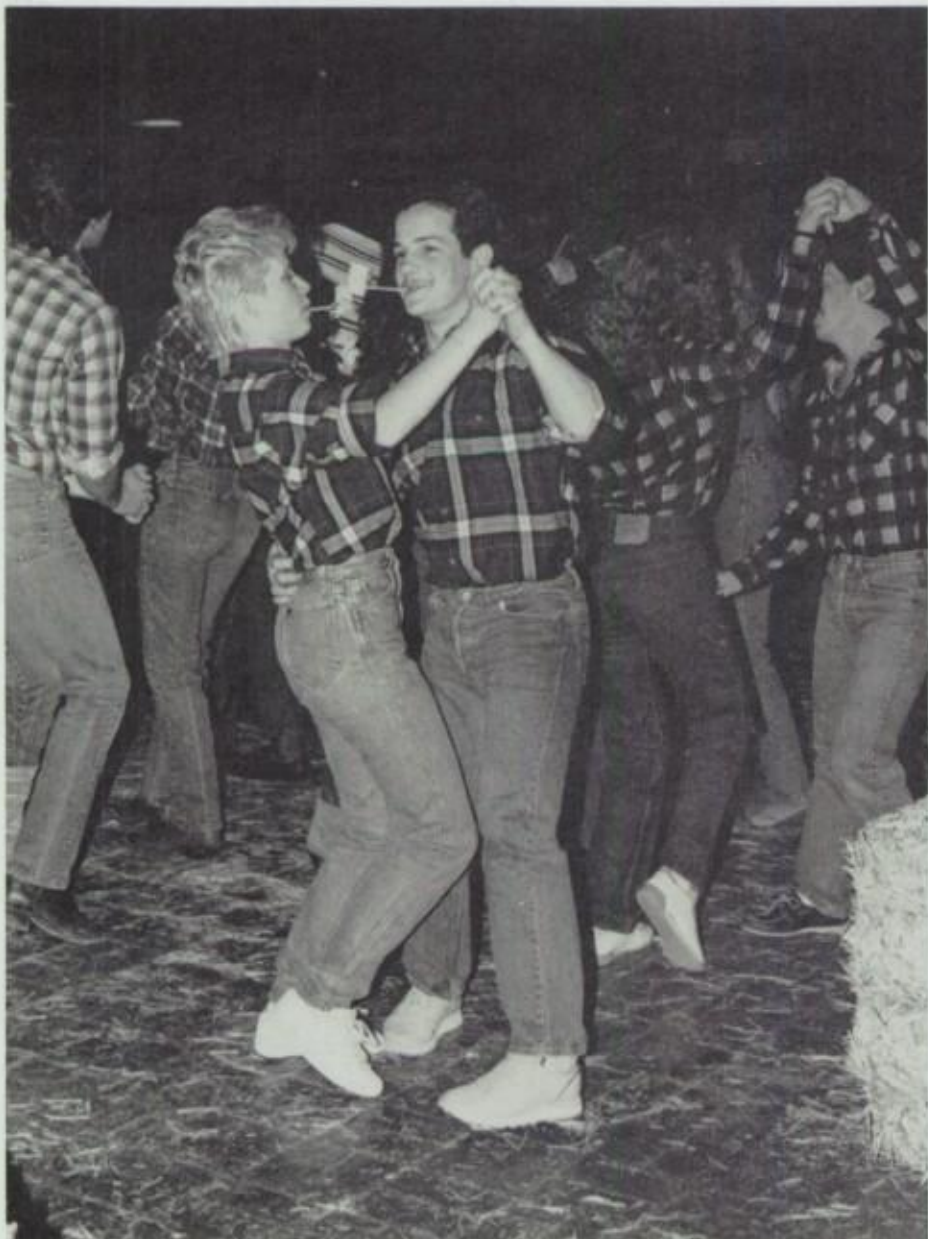

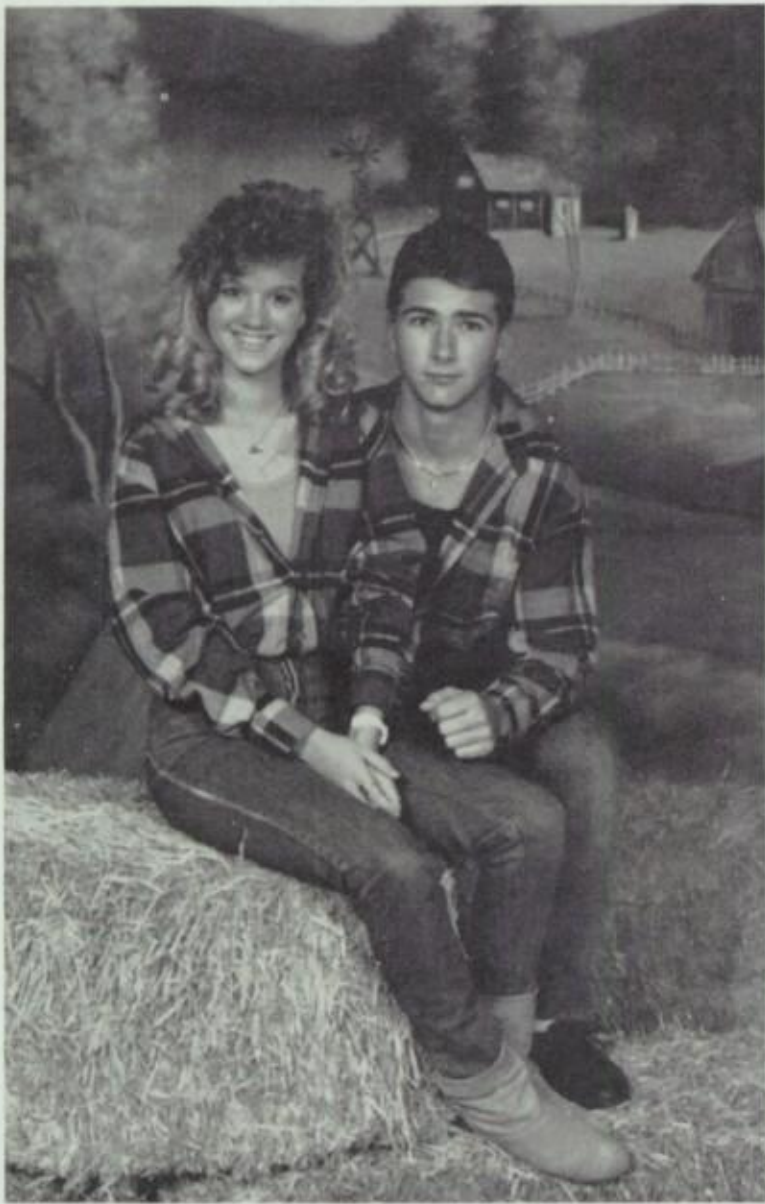

Sadie Hawkins Hoedown!!

Sadie Hawkins is a traditional dance at Eldorado Sponsored by the Junior Class. Although it has none of the "glamor" or "prestige" that the Homecoming or Senior Prom has *Sadie Hawkins* has a different twist that these two dances don't have- a chance for the girl to ask the guy out. As part of the tradition, the couples dress in matching Western shirts and jeans to get into the true spirit of the dance. Once everyone is in the spirit of things, they enjoy dancing in the hay.

Fame

We're going to live forever

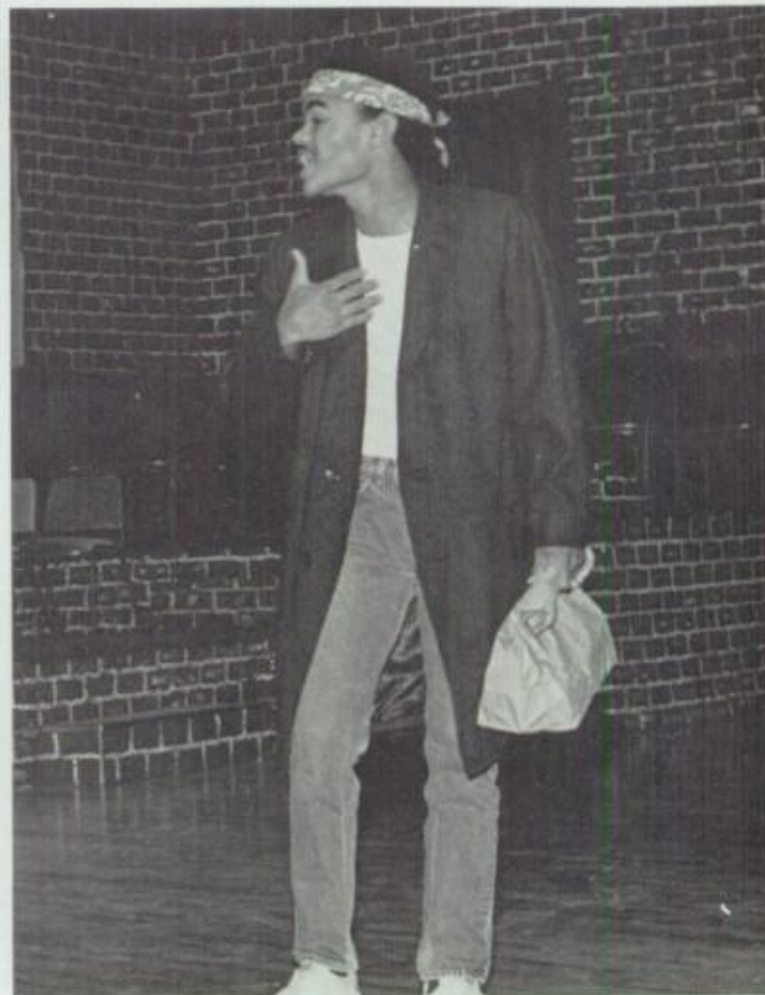

Alan Parker, director of the film version of *Fame*, summed up the heart of the show when he said,

"Our film, I hope, will be a microcosm of New York. It's the glamour of the Great White Way of Broadway and the squalor of 42nd Street; the dream of instant success and the constant reminder of failure; the fine line between a Juilliard Scholarship and dancing topless at the Metropole . . . It's George M. Cohan and the City Ballet. Rock and Roll and Vivaldi. It is New York . . . vulgar and beautiful. A dozen races pitching in and having their own crack at the American Dream."

Top Row: Eddie Milkey, Lori Rock, Beryl Cox, Patrick Loose. 2nd Row: Bryce Bergquist, Brian Davis, Regina Mercer, Karen Miles, Teri White, Sean Wortman. 3rd Row: Melissa Diegel, Lizz Firstbrook, Carolyn Montes, Erica Phillips, Darren Gates, Deirdre Murray, Ryan Brooks. 4th Row: Tony Vaughan, Raquel Molina, Harold Kerr, Murleen McKenzie, Magaly Nelson, and Wayne Cutler.

"The Eldorado High School production of *Fame* is our crack at the American Dream. I find it appropriate that we are presenting *Fame* in December, thus combining the joy of Christmas with the beauty of music and dance, resulting in a resounding celebration of life.

The Eldorado Sundevil Players wish each of you a happy and safe holiday, and may you too find your place in the American Dream."

Ms. Patricia Emmett

en little Indians

The Eldorado High School Drama Department was proud to present as it's second major production of the 198586 season, Agatha Christie's *Ten Little Indians*. The murder mystery about the sequential demise of ten guests at an island house was a great success. The set, designed by the director, Ms. Patricia Emmett, was one of the most complex yet attempted at Eldorado and the results were wonderful. Ms. Emmett and the drama department are looking forward to many more successful productions in the future.

B

lack History Week

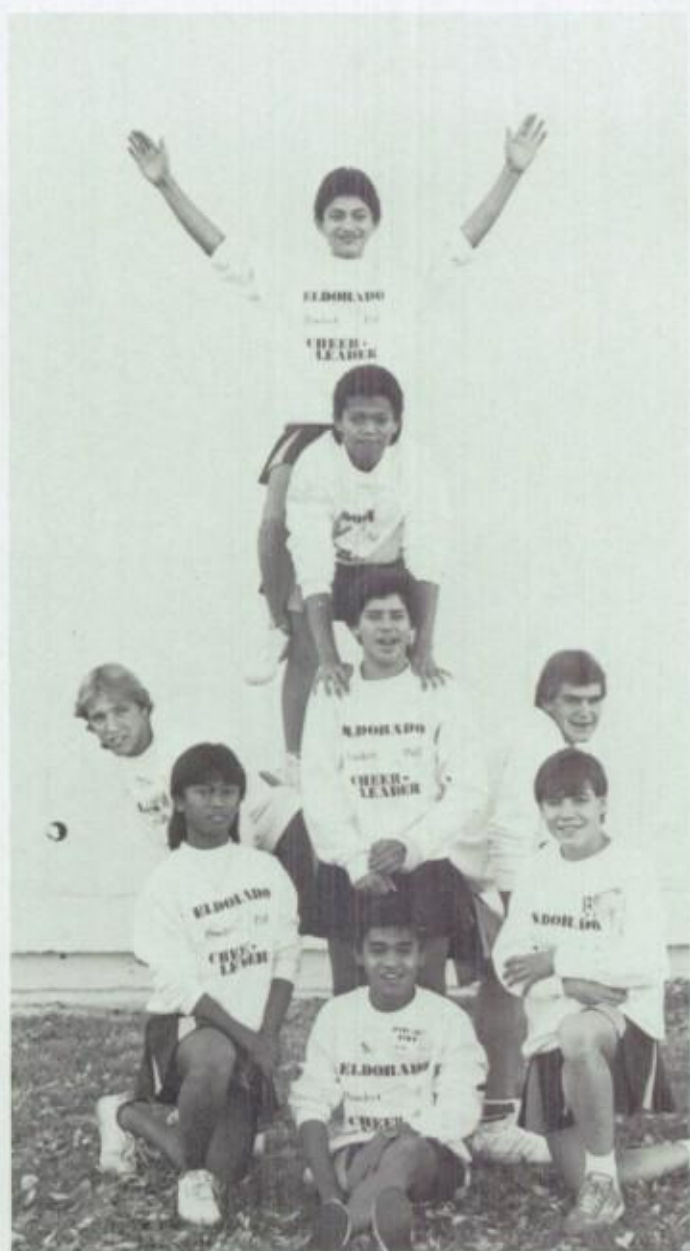

The Soul Club sponsored the Black History Week which was held the week of Feb. 24 through the 28th. Throughout the week, many students participated in many activities, such as the performance day where students displayed their talents. There was also the coronation of King, Queen, Prince, and Princess, Duke and Dutchess, and Lord and Lady. Patrick Williams was crowned King. Kelly Johnson and Brady Wells were crowned Prince and Princess. Phoung Horten and Dexter Price were crowned Duke and Dutchess. Kristal Treadwell and Aaron McColan were crowned as the Lord and Lady of Eldorado High.

Powder Puff, the last football game of the season; It is when the Seniors and the Sophomores v's the Juniors and the Freshmen. Let me tell you; It is an extraordinary football game. But, Who are the Beauties cheering on the side lines? LOOK! They are jumping and shouting and their wigs are moving all about. Oh my gosh! They are the Eldorado Guys showing the crowd their spirit. Well, Who is playing in the game then? The Eldorado Girls, and they played a mean game of football. It goes to show, day after day of practice and having the finest quality football players for coaches, they can make an unbeatable team. The Unbeatable team this year was our proud Seniors and the Sophomores. Maybe you will win next year Juniors and Freshmen. All of the players and the coaches deserve recognition for putting together a Super Powder Puff football game, where everyone had the chance to show their stuff.

lood drive A Bloody Success

Every year, Eldorado participates in a blood drive which gives students a chance to show their school spirit as well as their willingness to help others in the community. By volunteering their time and efforts, students demonstrate that there are teenagers who really care about their fellow citizens. This fall we had one of the best blood drives ever as Eldorado students and faculty donated a combined total of 141 units of blood.

Words from Anita Concoby, Head Songleader: "It is an honor to serve as head of the 85-86 Songleading squad. This involves a great deal of dedication and responsibility. Although I serve as the head, we are a group, and from the time we are selected we have to learn to cooperate and work together as a squad. There is no room for ego trips. We learn to live with each other with practice every day during the summer and throughout the year. It is a lot of hard work, but I don't think any one of us would trade our experiences for anything. I have a pride and love for all the girls on the squad, we have all made some very special friendships. As for myself, I am proud to have been a representative of Eldorado High School.

VARSITY CHEERLEADING

Varsity Cheerleading this year has been a lot of fun. One of our high points this year was that we were chosen to represent Nevada in the National Cheerleading Championships in Anaheim, California. Being chosen captain of such an elite squad was a great honor and has contributed to the success of my senior year.

In being a 1985-1986 Varsity Yell Leader, I've had many fun experiences I'll always remember. Throughout the year I've met many people while promoting spirit to make EHS #1.

During the past year I've watched the spirit grow with the help of my fellow yell leaders.

This involvement has taught me a sense of responsibility towards EHS and myself, to do the best job possible.

Eddie Doyle

Being involved with the mascots this year has been a great enjoyment for me and one I'll never forget. We take great pride in being able to work along side the cheerleaders helping to promote school spirit. This year's great football season made it easy for us to do our job. There was a damper on our year, though. Erika Highmiller had to leave us to attend another school. Because of the great abundance of spirit she demonstrated, we will never forget her and she'll always be in our hearts.

J.V. CHEERLEADERS

This year the J.V. Cheerleaders gave it their all to boost the spirits of the sophomore class, not to mention the entire student body. Shana Hyatt and Tracy Bower were co-head. They attended N.S.A. in California over the summer. They excelled in all competitions, receiving all Superior Plus ribbons and a trophy to bring back to E.H.S. They also shared credit with the Varsity Cheerleaders for the spirit stick, which is here at E.H.S.

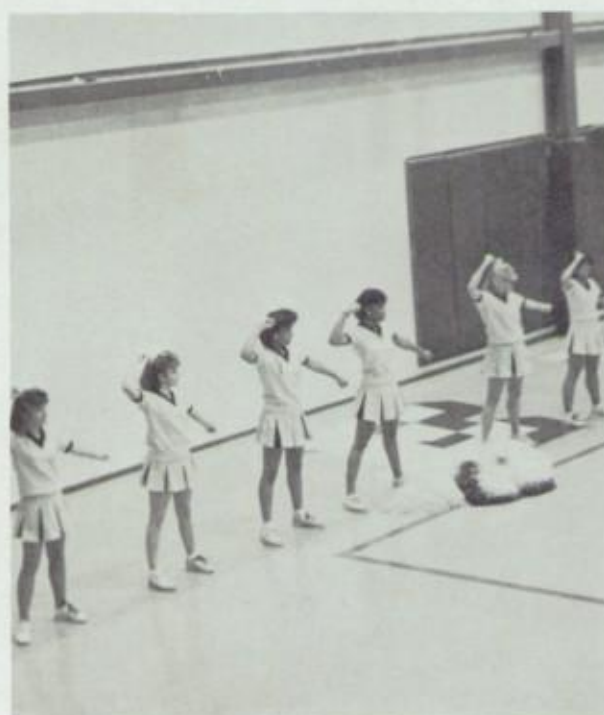

Left to Right: Shana Hyatt, Patricia Young, Tracy Bower Left To Right: Lisa Blake, Stephanie Walker, Marla Wilson, Cheri Pope, not pictured: Carmen Hawkins.

Being a J.V. Cheerleader isn't always fun, it can be a lot of headaches and hard work. Preparing for games, assemblies, etc., is a lot of work but it is also fun. Sharing common interests in cheering and school activities has brought us all closer together. Overall, we've had a great J.V. year, which is mainly because of the hard work and pride of the J.V. athletes. One of the greatest things about being a J.V. Cheerleader was standing behind the GREATEST school ever ... E.H.S. "WE LOVE OUR J.V. TEAMS!"

FRESHMEN CHEERLEADERS

The Freshman Cheerleaders of the 1985-1986 school year, have worked hard to be successful. Although there are problems in any organization, things always seem to work out for the best. I feel that the members of this year's freshman cheerleading squad are striving and working for success and will do their best in all that they do.

Christi Hanson
Head Cheerleader

This year's Freshmen Cheerleaders are giving it their all to show the spirit of the Freshmen Class. These young girls are very outgoing and full of cheer. They will go on to become J.V. Cheerleaders and possibly Songleaders and Varsity Cheerleaders. They do a good job representing their class. The girls on the squad this year are as followed: Angela Reed, Becky Hanna, Nissa Watson, Carrie Malcolm, Mandy Simmons, Christi Hanson, Jin Choi.

SUNSPOTS

In addition to the excellent skill, ability, and coaching staff that the Eldorado varsity wrestling team possess, there is yet another asset the team has; that is, the Eldorado Sunspots. These girls were present at all the matches not only to cheer but to keep the score. The young ladies deserve much credit for their hard work but they couldn't have done it without the help of their advisors, Mary Jackson and Mary Ann Holmes.

SUNDANCERS

Hi, My name is Lisa Hanson. I am the captain of the Sundancers for 1985-86. I feel that the Sundancers have progressed greatly this year. The girls on the squad have shown me time after time that they've got what it takes to put on a great performance. But of course they don't get away from practices. If there's something that I see that needs touching up, I make the girls do those counts and steps over and over again, until I think it looks good. I am the girls' worst critic. I work them hard, long hours, not only to be cruel, but also to better them. I hope that every performance we have the girls do their best. These girls on the squad are my pride. Every time we perform and we get an outstanding applause, it brings a tear of pride to my eyes. I hope every year becomes better and better. Let it be known that we will be around for a very long time.

HONOR SOCIETY

The Honor Society is made up of a group of students who have achieved high scholastic honors. This years Honor Society not only achieved this but they accomplished a number of things for are community. The most impressive accomplishment however, was the money they raised for M.D.A. Eldorado was chairperson for the organization over all of Clark County. The Honor Society also raised scholarship money for Eldorado's seniors throughout the year.

What is the tallest mountain in North America? You may not know the answer to this but fortunately for Eldorado, most of our Varsity Quiz Players know the answer to this and many more puzzling questions. As the popularity of trivia increases, so has the popularity of Varsity Quiz. Every year our team has been getting bigger and better and this year is definitely no exception. This years team has more players than ever and has had an outstanding record this season.

The Key Club is a school organization sponsored by the local Kiwanis club. VICA

"New Professionals" was the motto for the 25th annual Vocational Industrial Clubs of America Skill Olympics. Vocation from Culinary Arts to Photography were the categories competed in. Eldorado's 46 VICA members this year competed in the commercial photography division and other leadership skill areas. For a VICA member to compete in the skill olympics they must first compete and place within the top 16 finalists in a regional competition. From there, the participant goes on to state competition. In the state competition, medals are given to participants placing first to third. From the state competition only Gold medalists can go on to the National Skill Olympics. This was Eldorado's second year in Vocational Photography, and Eldorado's VICA has made a mark in both state and national competitions.

The words "fund raisers," "good will," and "good deeds" should bring to mind the group Human Relations. Human Relations is a group that would meet every week to discuss ways in which they could better their community with their service. This dedicated club sponsored several fund raisers to raise money for donation to local charities, and to use in helping their community. Eldorado High School can be proud to be represented by such a worthy organization.

The Yearbook Staff is composed of 10 photographers and 9 reporters, not including the 5 editors. Being a part of the Yearbook Staff requires a lot of hardwork, dedication, and time. Realizing that you are responsible for a book that many students will keep for many years to come makes each person on the staff work even harder to produce a book that will be better, than any of those in the past. Being on the Yearbook Staff as an editor, photographer, or a reporter requires work to be done not only during class but many hours after school in order to complete and meet deadlines.

The Editors have the most important jobs of all, they must continuously make decisions concerning what should and should not go into the book. Although the editors do not do all of the work which goes into the book, they are responsible for it to be done correctly and well. An editor's main goal is to produce the best Yearbook that Eldorado High School has even seen in the school's history. To accomplish this goal the editors often endure long days, which seem like nightmares, just to be able to meet the deadline on time. All in all, the editor is the person which somehow gets stuck with all of the responsibility and headaches.

The job of the reporters is to do the layouts of the pictures that will go on the pages of the books. As a reporter, the job also includes writing short paragraphs telling about the pictures featured on that page.

A photographers job includes only one thing; pictures. Often the photographers must remain after school to take the pictures of sports, activities, or an organization, besides taking the time to print and develop these pictures during class and after school. This job is extremely important, because without pictures, there would not be a Yearbook.

As you can see, the making of the Yearbook takes a lot of time, hardwork, and dedication to create a book which hopefully be read many times throughout all of our lives.

ADVOCATE

With only four members, this years Advocate staff has had a very tough job. They have worked very hard to provide the student body with an informative and entertaining newspaper and have done a great job.

STUDENT BODY OFFICERS

The Student Body Officers are the nucleus of Student Council. They sponsor many activities such as Homecoming and the Blood Drive. They also help and give great support to the rest of the Student Council and the entire student body. Student Body has been successful in displaying leadership and spirit throughout, not only Eldorado high school, but throughout Las Vegas by attending luncheons and representing Eldorado in the Nationals.

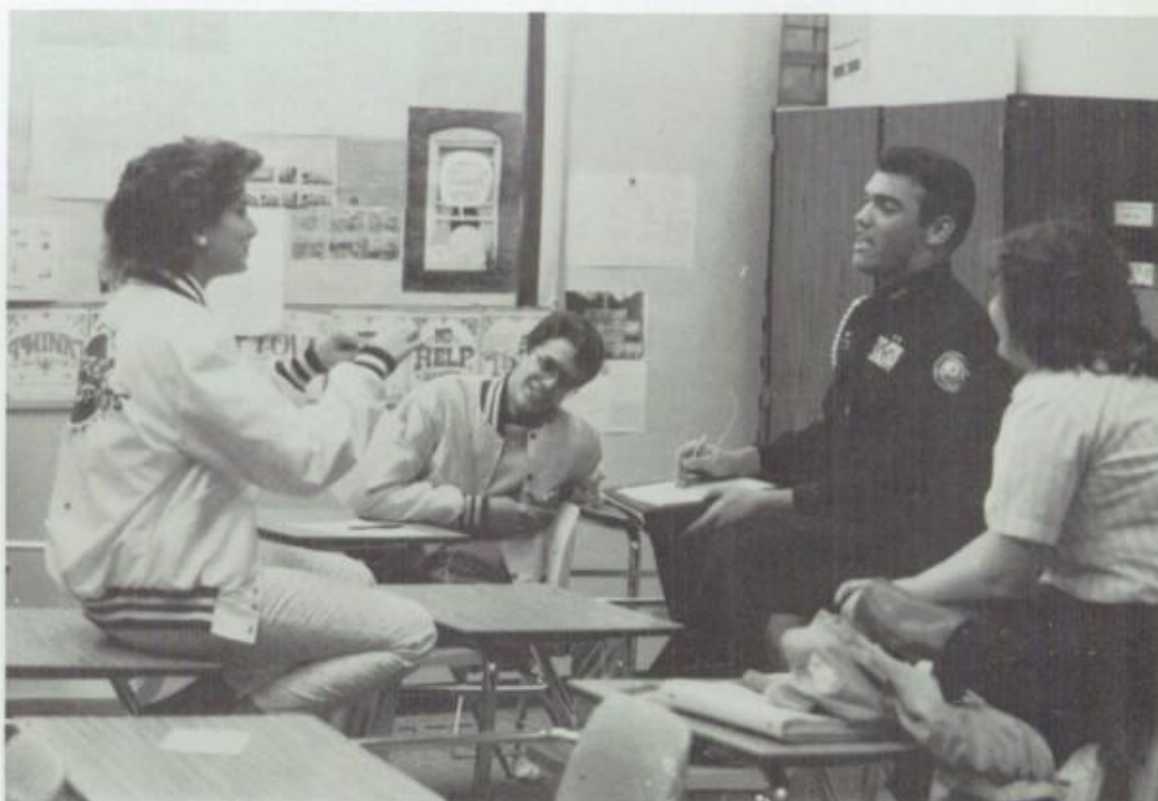

STUDENT BODY OFFICERS

Susie Ryan, Shelley Livingston, Tom Wolf, David Dornak, Lisa Patterson.

STUDENT COUNCIL

Student Council means something different to each of us. Maybe that's why it's so special. There are thirty-seven unique ideas getting together every day and working together in every way. The one thing that they all share is that they truly care, not just about Eldorado, but about the entire student body, faculty, and staff. Student Council can't be successful without involving the people in the building. In fact it's their goal to involve the student body in all activities. The person that holds it all together is Ms. Travers with her love and devotion. She leads them through their daily work of thinking of activities to promote school spirit such as the spirit assembly, selling class shirts and buttons. They also sponsor many of Eldorado's dances such as Sadie Hawkins, the Sweetheart Dance, and the unforgettable Prom. Student Council also attends Youth Affairs where they get together with students from other schools who are in Student Council and share ideas to bring back to their individual school. They also visit Beverly Manor, a convalescent home, once a month to spread good cheer and laughter throughout their building. This year's Student Council was very successful in promoting school spirit, and all the while, had a great time doing so, which makes them something special.

The "E" on the mountain symbolizes something special and unique to each of us here at Eldorado. We want the "E" to be seen throughout Las Vegas in the best shape and form. CHESS CLUB

Chess Club gives the opportunity for new and advanced players to greatly increase their expertise in one of the world's most challenging games. Matches are played with all other Clark County high schools. At the end of the year, an all-school tournament is held under the direction of the United States Chess Federation, (USCF). All members emerge with membership in USCF and an official National chess ranking. Ms. Karen Jensen, is the chess club's advisor.

If you have wandered, one lonely Friday night, into a football game, or some lonely afternoon to a boys' varsity basketball game, you probably would have beheld a group of guys and gals in funny maroon and white attire yelling, screaming, and carrying on. These maniacs, more commonly known as the *Pep Club* or *Spirit Movers*, were a common sight at just about all varsity boys events, and an eyesore to all the janitors every Monday afternoon when learning new cheers under the supervision of Mrs. Greene. So, everyone, Freshmen included, stand up and give them a hand. They certainly have given out enough.

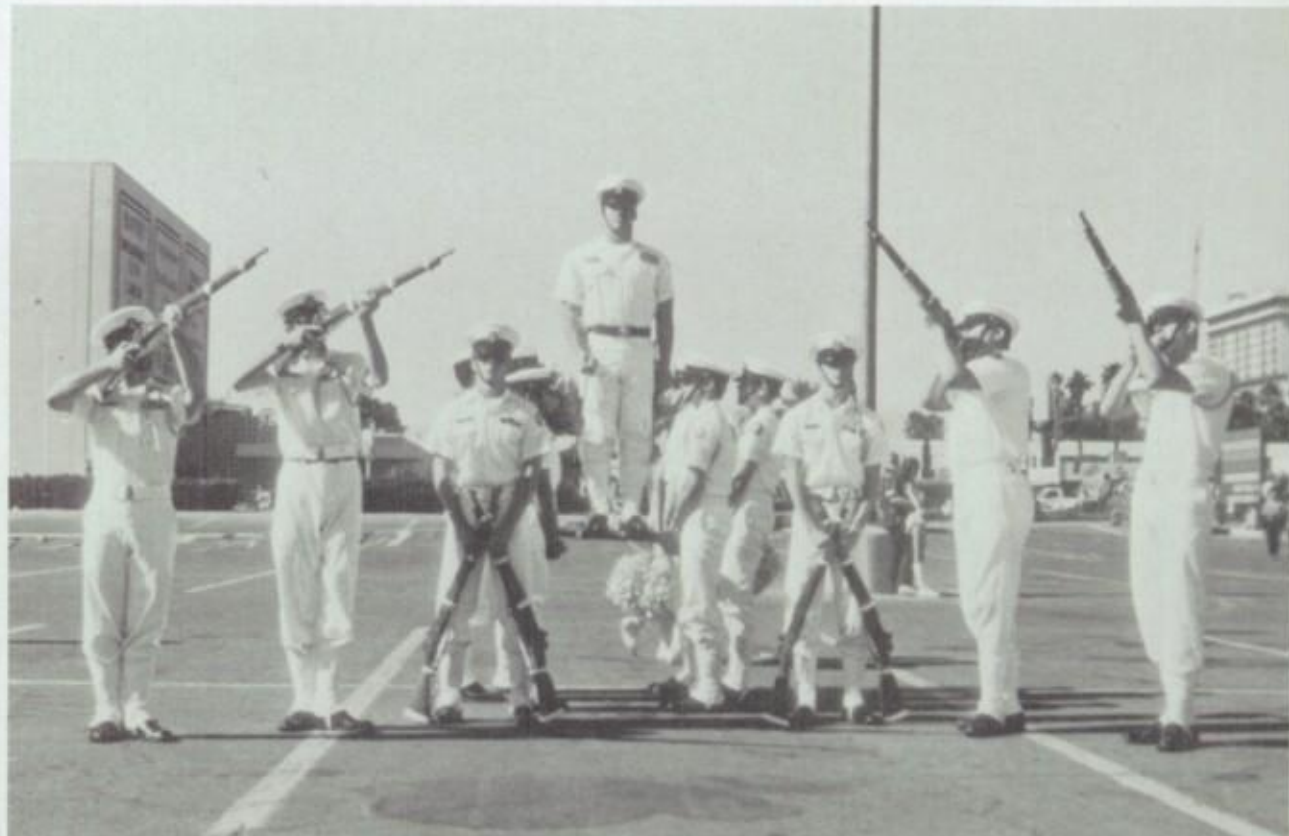

Soccer Bunnies: What's that? Previous to the 85-86 year the answer would simply have been "gophers" for the soccer players, but this year they've taken it a step further. They've learned cheers and practiced long hours to bring more spirit to the games and to motivate the school, through the use of posters announcing the games and activities. Before this year, soccer was virtually unrecognized as a sport at EHS. However with the help of the Bunnies, this year's soccer team is as widely recognized as any other EHS sport.

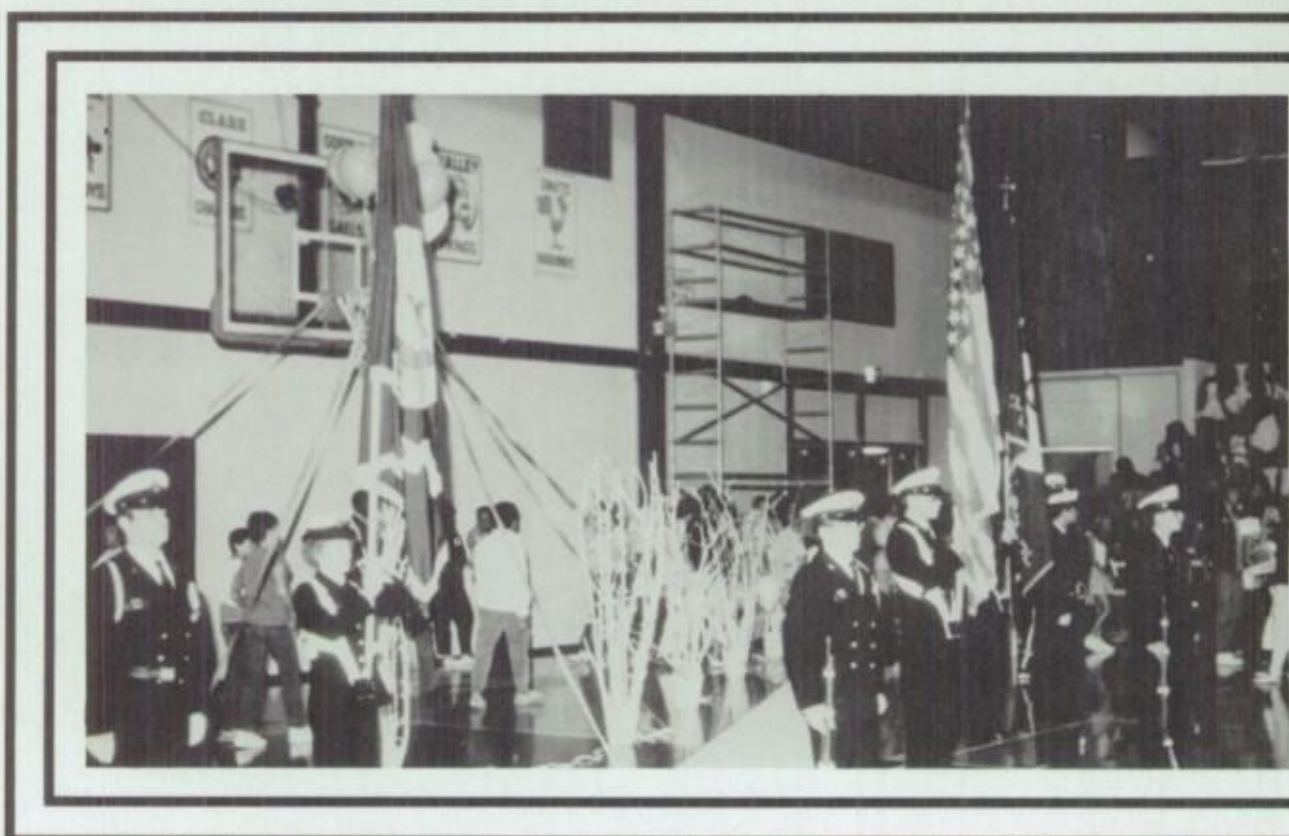

The Soccer Bunnies are Genevieve Perlman, Perla Perquier, Tina Velo, Lori Pesquier, Stacey Wagner, Laura Hansell, Jeni Emote, Chris Oakley, Chris Hickey, Kris Cheney, Kathy Eager, Tammy Vassar, Carolyn McMillian, Monekka Mullin, Julie Kleinkopf.

Imagine yourself walking through the forest, the surroundings are lush, green, and beautiful. Above numerous caves can be seen. As you start the climb you wonder if it is worth it. If you enjoy hiking through the mountains or the desert, crawling through caves and disturbing the occasional bat, then "Cave Crawlers" is for you. "Cave Crawlers" go many places during the year, including Red Rock Cave, Desert Cave, and Devil's Throat. When you are bored, and looking for something to do think about joining Cave Crawlers.

Varsity Makes It
To Zone.

"The Sun Devil Football Team finished the 1986 season with the best record in the schools history. The team made the playoffs and finished 5th in the state. The team was led by the number one ranked Defense in the state.

The student body, teachers, staff and community were behind the team. The spirit along with a hard working team have Eldorado High a fine 6-4 record to establish a first in the schools history.

The coaching staff and the team would like to thank everyone for the support received from all. This gave the team and the community a plus in Nevada High Schools.

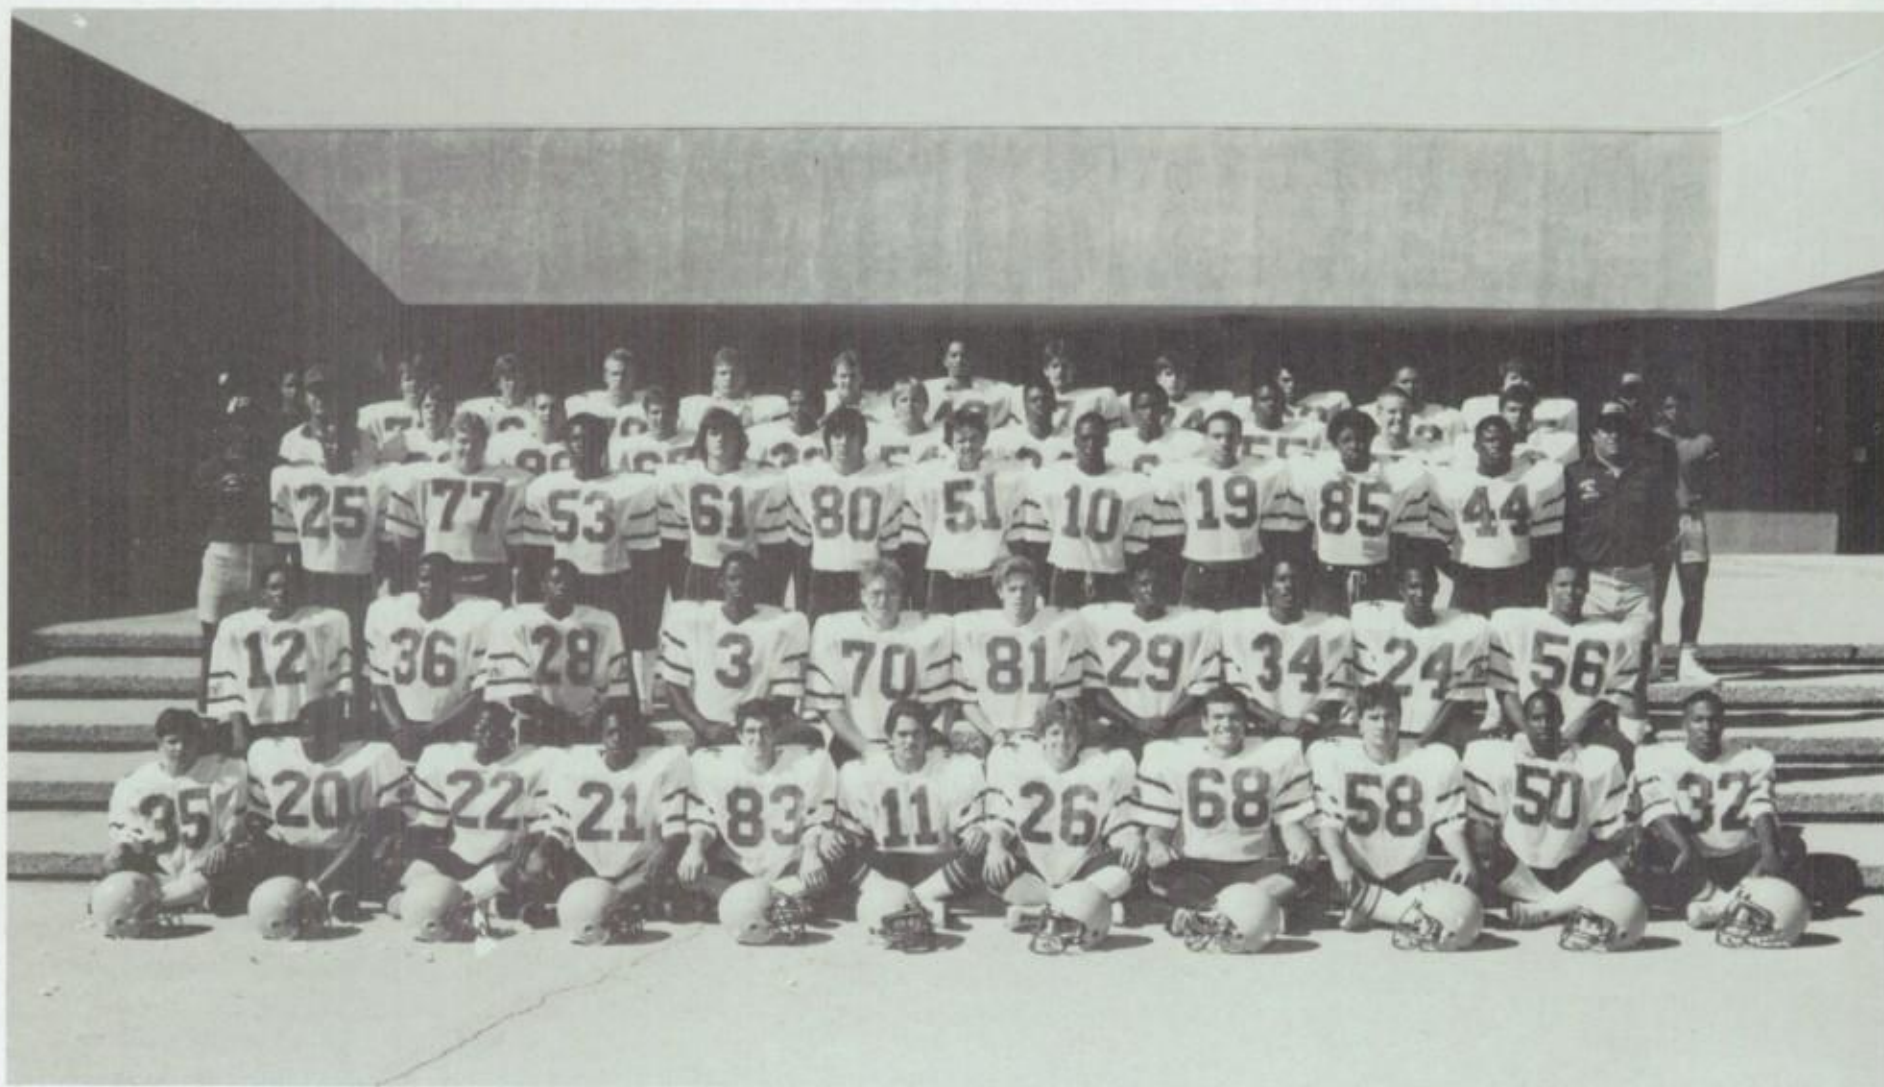

The team was led by many outstanding players such as Don Jackson, Tony Veglia, Rich Daniel, Marc Wilson, Matt Young, Nobie Bellamy, Darrell Hinton, Chris Carter, Greg Rabb, Dave Klien, Michael Holmes, Bobby Daniel, Kevin Hammond, Sean Klosek, Howard Carter, Jim Breed, Jason Brawer, Eric Wohlab, Terry Prait, Jody Marshall, and Gerald Fye."

Practice makes Perfect

"We've got the spirit yes we do, we've got the spirit how about you!" The stands are filled with students and parents all brimming with excitement, spirit, and a certain amount of stress. One look at the scoreboard provides the obvious reason for this stress. The score is 13 to 12, 4th down with 12 seconds left on the clock. With the ball in the Sundevils possession, they decide to go for the extra 2 points. The ball is hiked and the pattern ran. As the ball reaches the end zone, the clock reaches 0:00:00. They did it! All the hours of practice paid off. As the guys walk off the field with their heads held high, "they feel good, oh they feel so good!". The excitement of feeling proud and pleasing their coaches and their fans. All the wind sprints and 4 corners paid off. The young men practiced Monday thru Wednesday and Friday for that one day of the week, Thursday, too show their stuff!

FRESHMAN FOOTBALL

Future looks bright for EHS football

The freshman football players have shown that they have the potential to be the future varsity football stars. As freshman they have learned that it takes a great deal of hard work and dedication to play football for Eldorado. They also learned the feeling that comes over them as fellow classmates cheer them on as they make that big tackle or score the winning touch down. With talented and dedicated players such as these, the future looks very bright for Eldorado football.

BASKETBALL

"Varsity shoots
for State"

The 1985-86 Sundevil Basketball team had an outstanding season. The team worked hard to keep up with Eldorado's winning tradition. After being state champs last year our team showed their enthusiasm by working hard and trying to gain the recognition they deserved.

"STAYING ON TOP"

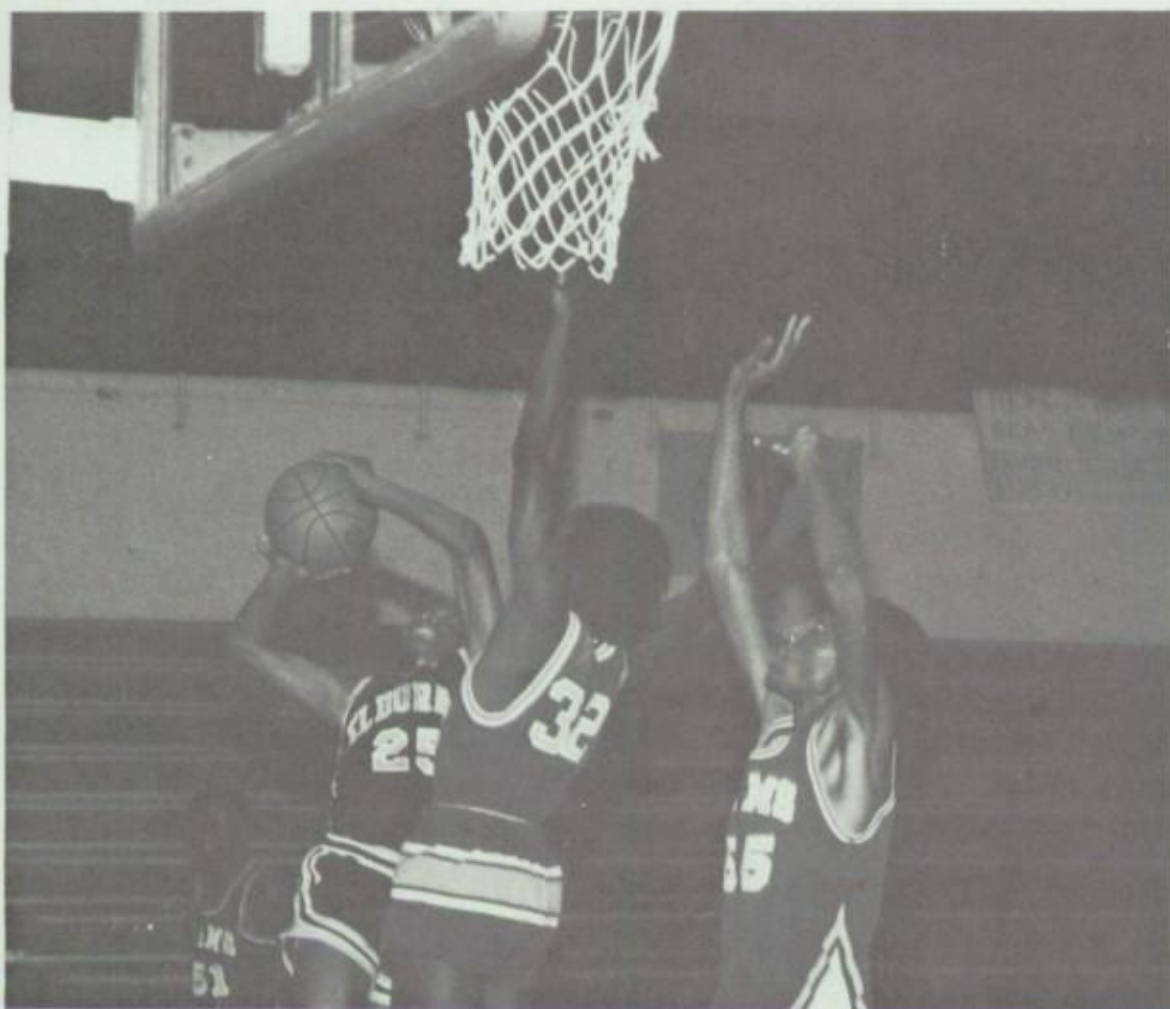

Coach Johnson and his vigorous J.V. basketball team can build up a lot of excitement. Their skillful shooting and fancy footwork shows the abilities of our outstanding J.V. team. On the court their ambition and accurateness lets them dominate and overwhelm their opponents. Fast breaks, hook shots, rebounds and slam dunks; all what make this Junior Varsity team spectacular.

This years B-Team Basketball strived hard to accomplish their goals this year. They worked together to keep up their grades and still have a winning season. All the hard work and effort paid off with a great year. This years Boy's B-Team Basketball members are: Fred Smith, Mike Holmes, Ron Culberson, Kurt Wolrab, Darrick Henderson, Svante Singelton, Don Griffin, and Mason Vison.

GIRLS VARSITY BASKETBALL

Putting it all together

The girls varsity basketball team was blessed with a lot of new talent this year. Because of this talent the lady Sundevils had an extra advantage over the other teams; the element of surprise. The other teams were aware of the three returning letterman yet they had no idea about the out of town visitors and the "new edition". Head coach Quinn had all the ingredients for a great team. She put it all together and came out with a winning season as the main dish.

This years girls J.V. basketball team has been one of the best ever, in fact, coach Lazzarato believes that they will become the best in the state in a few years. Through hard work and dedication, the future looks bright for Eldorado basketball. This years team is comprised of many quick and talented girls including the consistant player, Phung Horton who averages fourteen points a game.

"Moving On Up"

The girls basketball B-team had a great and successful year as they work hard to move on up. They have practiced many long hours, so that in the years ahead they may become a J.V. or Varsity player, they all want what it takes to be the best.

"Teamwork"
Is Togetherness

"Shake it off," says one player to another. Coach Bright calls a time out to discuss the last series of mistakes made by her varsity squad. She reminds them that, teamwork is togetherness, and with this in mind, the players return to the floor. The ball is served; a player from the back tries to bump it up to the setter, but fails, and the ball goes off court. Half the team runs to get the ball back in play, and they succeed to leave their opponents standing in awe, trying to attempt to figure out how the Lady Sundevils got the ball back over the net. The Varsity Volleyball Lady Sundevils know the answer ... "TEAMWORK."

J.V. VOLLEYBALL

**I Want You To Go Out
There And Do Your Best.**

"All right girls, you know what you have to do. A lot is at stake on this game, so I want you to go out there and do your best!"

With the pep talk over, the girls leave the locker room and trot onto the gym floor. The game begins. During the course of the game, the girls play exceptionally well, each girl mastering her serve to have the return set and spiked for a point. The opposing team cannot understand why our team is so good. Only our girls know that it is because they practice three days a week, for two hours a day under the constant supervision of their advisor, Ms. Silverman, and the leadership of their captain, Collette Hinton. They are the only ones who know that because of this, they, the girls J.V. Volleyball team, will go on to play a winning season!

CROSS COUNTRY

Running for the best

This year the Eldorado Cross-Country Team ran an excellent season. The girls were ranked number one in the city, while the boys were fourth. On November 2, the team went to zone. The girls took a well deserved first place. The boys took a close fourth. During the State Meets in Reno, the girls took fourth place, the boys took place, with Norm Watson taking First all around.

VARSITY WRESTLING

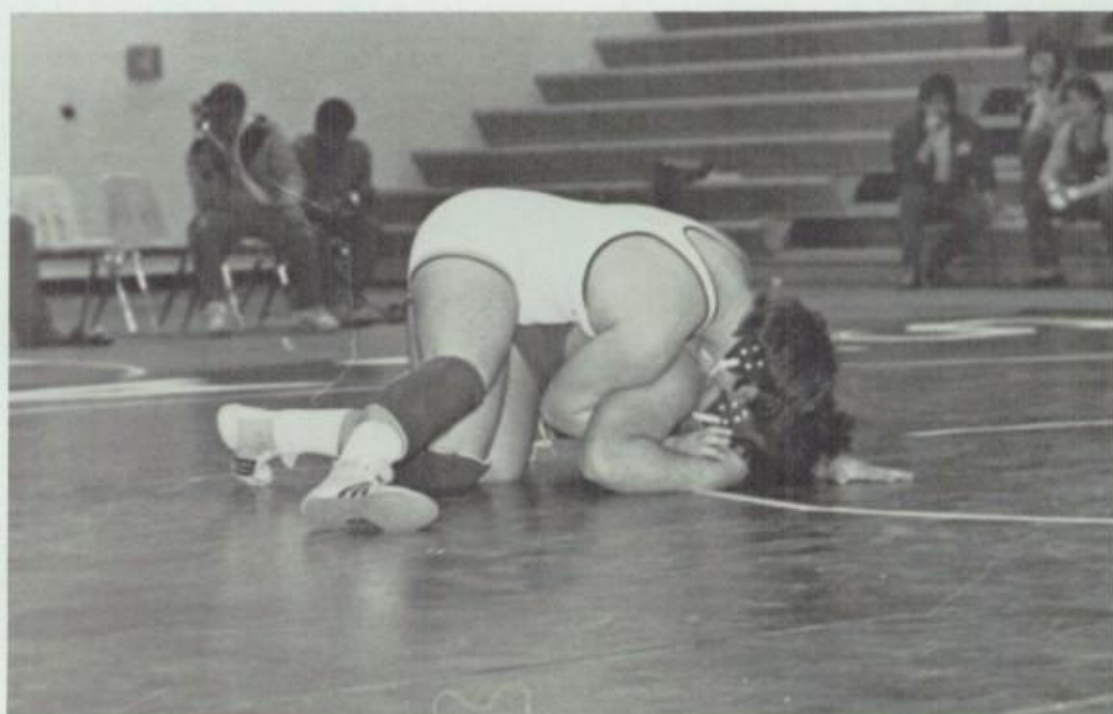

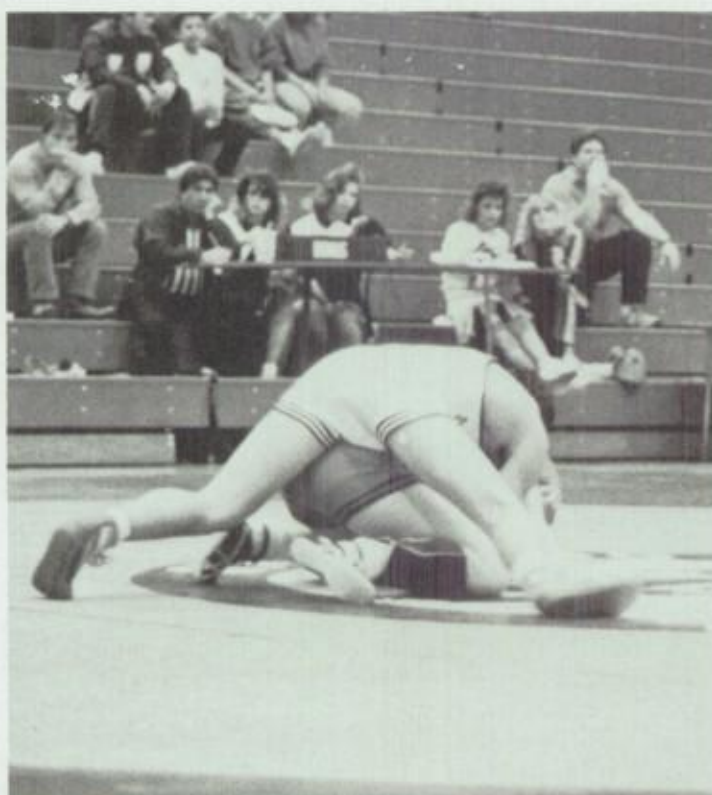

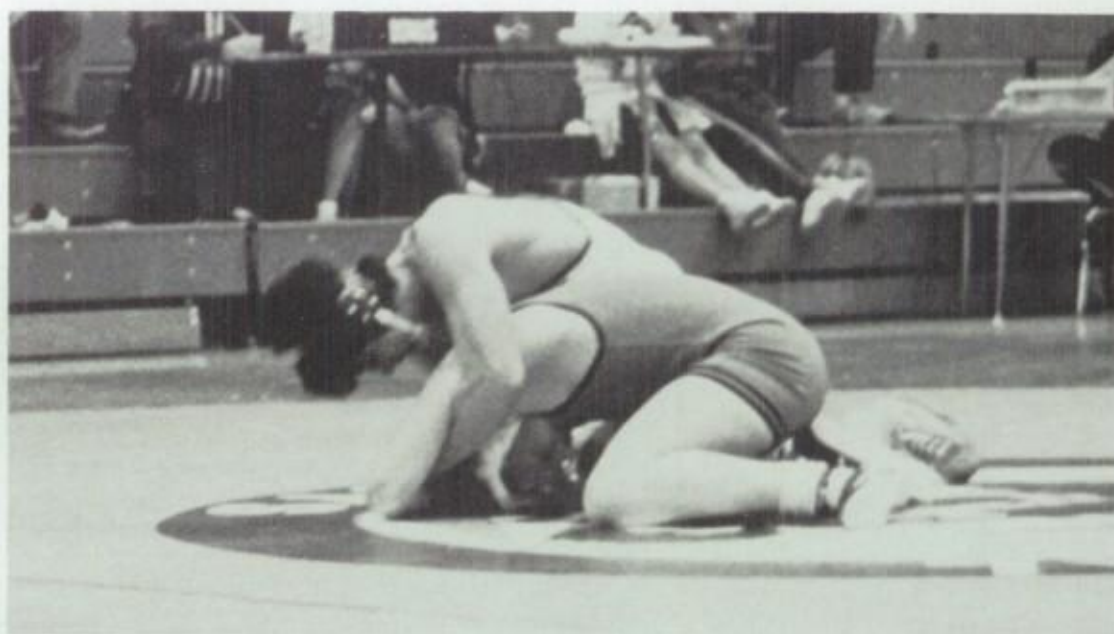

Eldorado: Nevada
State Champions
of 1986!

He prowls around with a face full of determination and the look of hunger in his eyes. He crouches in position ready to attack his prey. His opponent knows he is coming and can't help being afraid. They go around and around until finally, he goes in for the kill. In the blink of an eye, he jumps on his opponent, throws him to the ground, and pins him down. No, he isn't a wild animal, at least not in the literal sense, he is an Eldorado Varsity Wrestler. He definitely has determination, and that, along with a great deal of hard work, is what has lead EHS to domination of state wrestling for many years. This year has been no exception as our varsity wrestling "animals" have once again proven that they can't be tamed!

J V Wrestling

J.V. WRESTLING KEEPS
UP E.H.S. TRADITION

The 1985-86 J.V. Wrestling team took more than their share of wins and pins this season. There is no doubt in the minds of the students of E.H.S. that these boys are definitely keeping up the tradition of being number one in Clark County where wrestling is concerned.

This years E.H.S. J.V. Wrestling is coached by Mr. Marafino, Mr. Jones, Mr. Arrata. The team consists of: Top Row-Kenneth Kurth, Kelly Patterson, Alan Bingham, Warren Gray, Toby Hollinsworth, Leroy Stallworth, Brian Turner, Ron Marks, Mike Snow, Damon Morris. Bottom Row: John Gondini, Milton Cooley, Chris Cave, Pat Medina, Tim Breed, Todd Waak, Mike D'alessio, Todd Powell, Lynn Frehner and Billy Soult.

GOLF

All the way
to the green

This year the Girl's Golf team at Eldorado did an excellent job of keeping their spirits up. Although they did not rank, these girls had a ball playing at various courses and competing against girls from the other high schools. Mona Cella was the outstanding golfer with an average of 63 on the 9 hole course.

Almost every young American boy dreams of someday being a professional baseball player. Making the Junior Varsity Baseball Team is a stepping stone in these young mens lives. They'll go from J.V. to Varsity, to college and hopefully major league ball, where they can join the big names like Steve Garvey, Fernando Venezuela, Steve Sax, Ron Cey and many more. These young men put out many hours of hard work into their practices, so that when game day comes along they'll be plenty prepared to face their opponents out on the baseball diamond. This years J.V. Baseball team consists of (L to R) Coach Burris, Greg Lyons, Rick Offley, Kurt Wohlrab, Sam Minyard, Richard Speekman, Chris Carrico, Jaime Ruano, Steve Konst and Coach Bruian. Softball

Just Another Hit!

Have you ever stayed after school and watched a group of talented young ladies improving their pitching arm or practicing their batting? If you have, you have witnessed the Softball teams at Eldorado. These are a special breed of young ladies that are unafraid to break their nails or even get dirty. They spent many hours after school perfecting their individual skills to work as a team, which was easily seen at any one of their games. They could have never reached their full potential without their coaches, Ms. Quinn and Mr. Levins.

BOWLING

Eldorado knocks them down

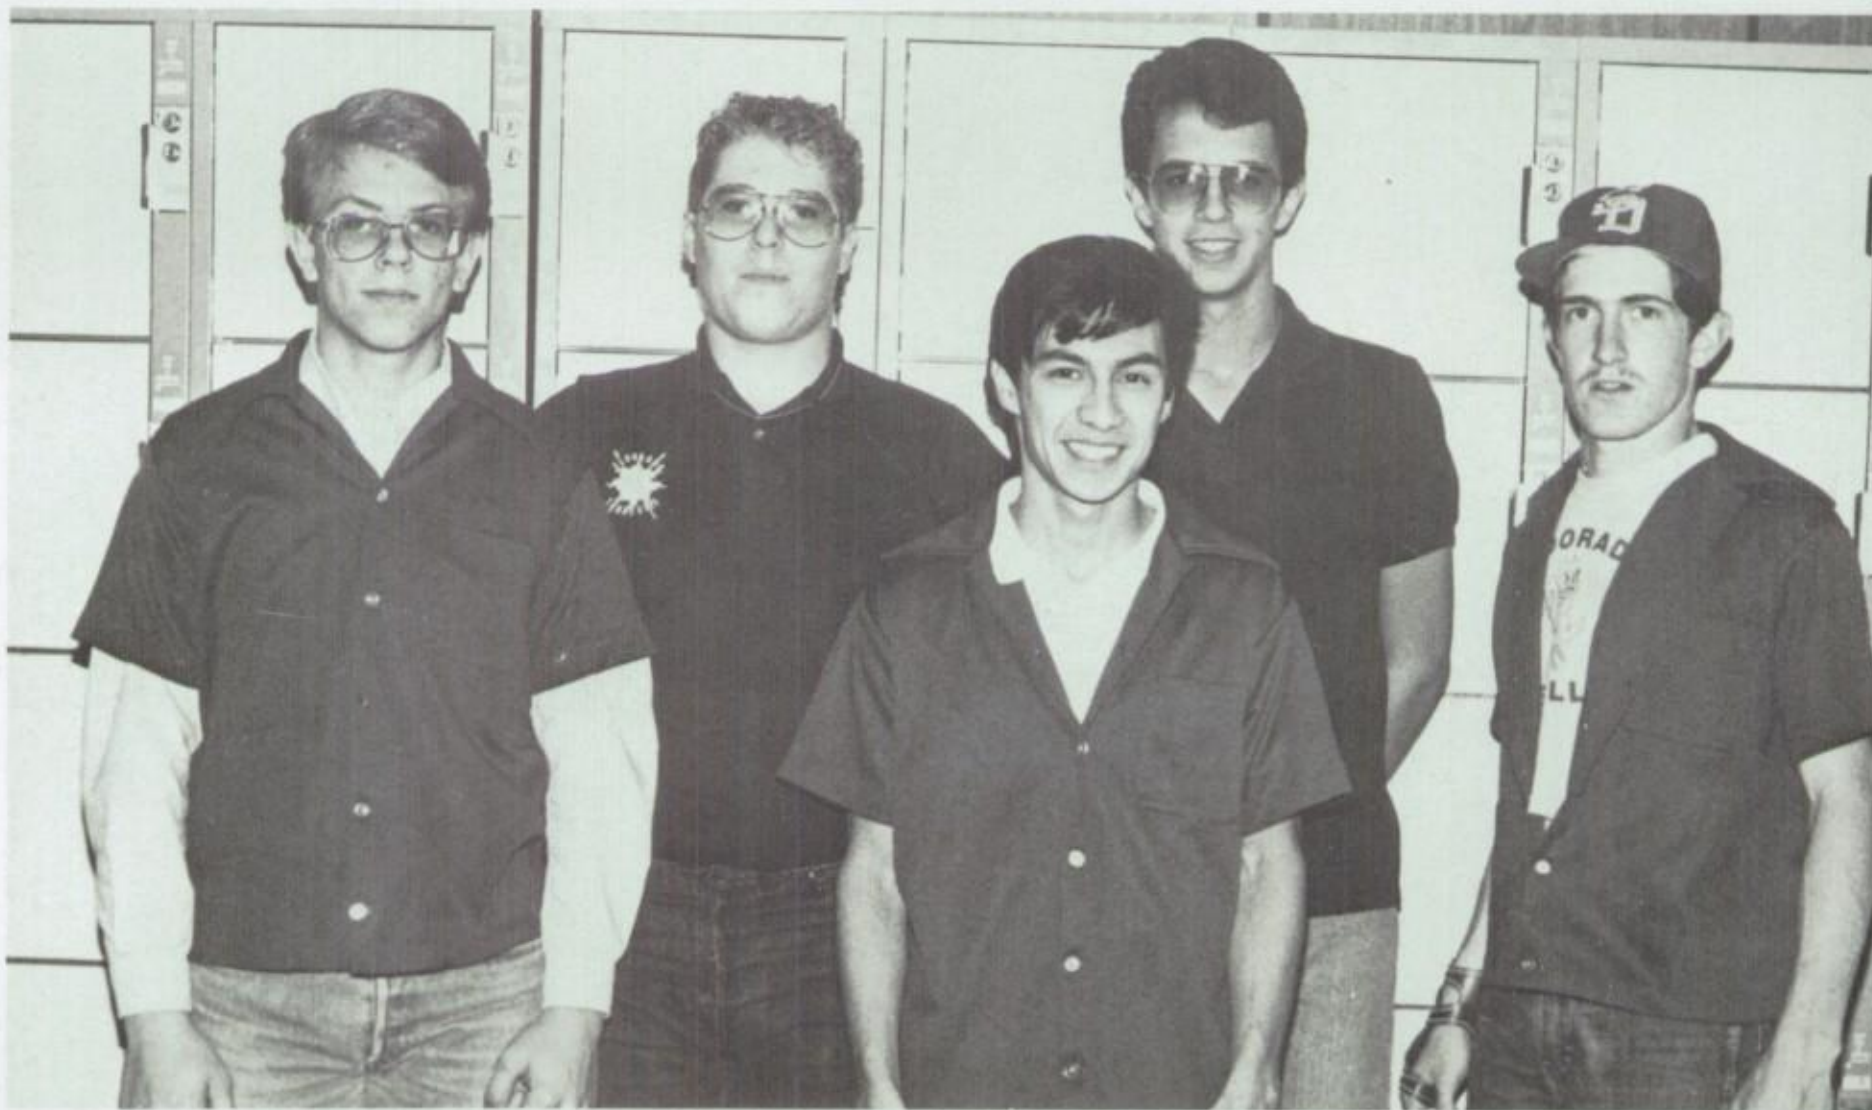

This year the bowling team was made up of a number of "striking", young, talented students. Although the team did not obtain a first place standing, they did give it their best, with Raul Arroyo finishing with a fantastic 176 average, and Benita Smith with a 145 average. As next year "rolls" in, it brings the return of new hopes and goals of higher averages. Members of the '86-'87 bowling team: "KNOCK'EM DOWN".

"The Thrill Of
Victory"

Eldorado track participants know that hard work pays off. Day after day, these athletes push themselves to the limits at practice, preparing for upcoming meets. When one of these athletes wins an event, he or she knows it's not luck that brought them victory, but the hard work and dedication they put forth. Good Sportsmanship is stressed in track, and Eldorado is well-known for its good temper. No one is a loser at EHS, but a winner that hasn't yet proven himself as such.

ELDORADO GETS IT'S KICKS

This year's Varsity team was made up of 19 of Eldorado's most spirited players. They started out with 2 losses and they still strived to do their best. The team was young and had very little Varsity experience, but they tried to work together to make the best out of their Varsity year.

THANKS!

To all the teachers that spend endless days giving of themselves and their knowledge to each student that is willing to accept it and learn by it, Thank You.

For each teacher that goes through those tedious and frustrating days, Thank-You.

Without you, students would never reach for all they can. Yes, you influence them by showing the 'human' side of life, and that by giving it their all, students will achieve success. You are the examples of what the 'real' world is like, and though every student may not be inspired, it has been said, "If one student is influenced then I have achieved my goal." By looking at the graduating classes of the past, it is easy to say that, the teachers at Eldorado High have achieved their goals.

For all those thank-you's that were never said, "THANK-YOU!"

BUSINESS

The business department at Eldorado teaches students practical skills in areas such as shorthand, typing, office machines, data processing, computer programming, and secretarial procedures. These skills will be valuable tools in the job world. The classes instruct students how to deal with problems that will arise in the everyday operation of a business.

LANGUAGE ARTS

The art of communicating is the most vital art in our society. He who can read and write with some expertise can express himself well and convince others of his intelligence. The English department at Eldorado does an excellent job of enhancing the students individual skills so that after high school they will have the necessary skills applicable towards any career.

MATH

Math: the science of numbers and their operations. Many students never realize, as they moan and groan over a difficult math problem, that after graduation, math skills are applied and used almost every day in any profession. The math department provides a variety of classes the student can use to broaden his mind and attempt to become knowledgeable in the mathematics field. These courses include introductory algebra, algebra, algebra II, geometry, trigonometry, consumer math, and computer science.

SCIENCE

Science is the knowledge of facts, laws, phenomena and causes gained by exact observation, organized experiments, and exact thinking: In other words, science is the process of trial and error. Through these programs, students learn to probe into matters and their secrets. The science classes offered here at Eldorado are life science, earth science, environmental science, biology, and the more trying, chemistry and physics.

PERFORMING ARTS

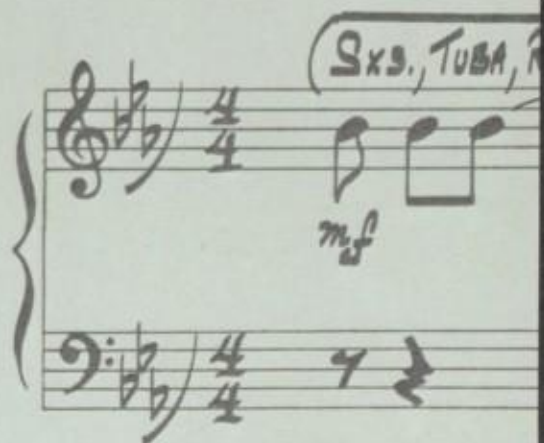

The Performing Arts are a key ingredient to the success of Eldorado High School. Eldorado has always had enthusiastic participation in the Sundevil Gand, Jazz Choir, Concert Choir, Girls' Glee, Madrigals, Sounds of the Sun, Stage Band, and Drama. Being involved in the performing arts guarantees the students lots of hard work and long hours of rehearsing, but in the end, great reward deep in their hearts.

P.E. HEALTH

Eldorado not only gives the student a chance to broaden and shape his mind but his body as well. Through the extracurricular sports offered at Eldorado, such as softball, baseball, basketball, and other team sports, students learn to work together. The physical education classes provide a combination of benefits, providing the student with information on their fitness and keeping fit as well as learning teamwork and the basic rules of most sports.

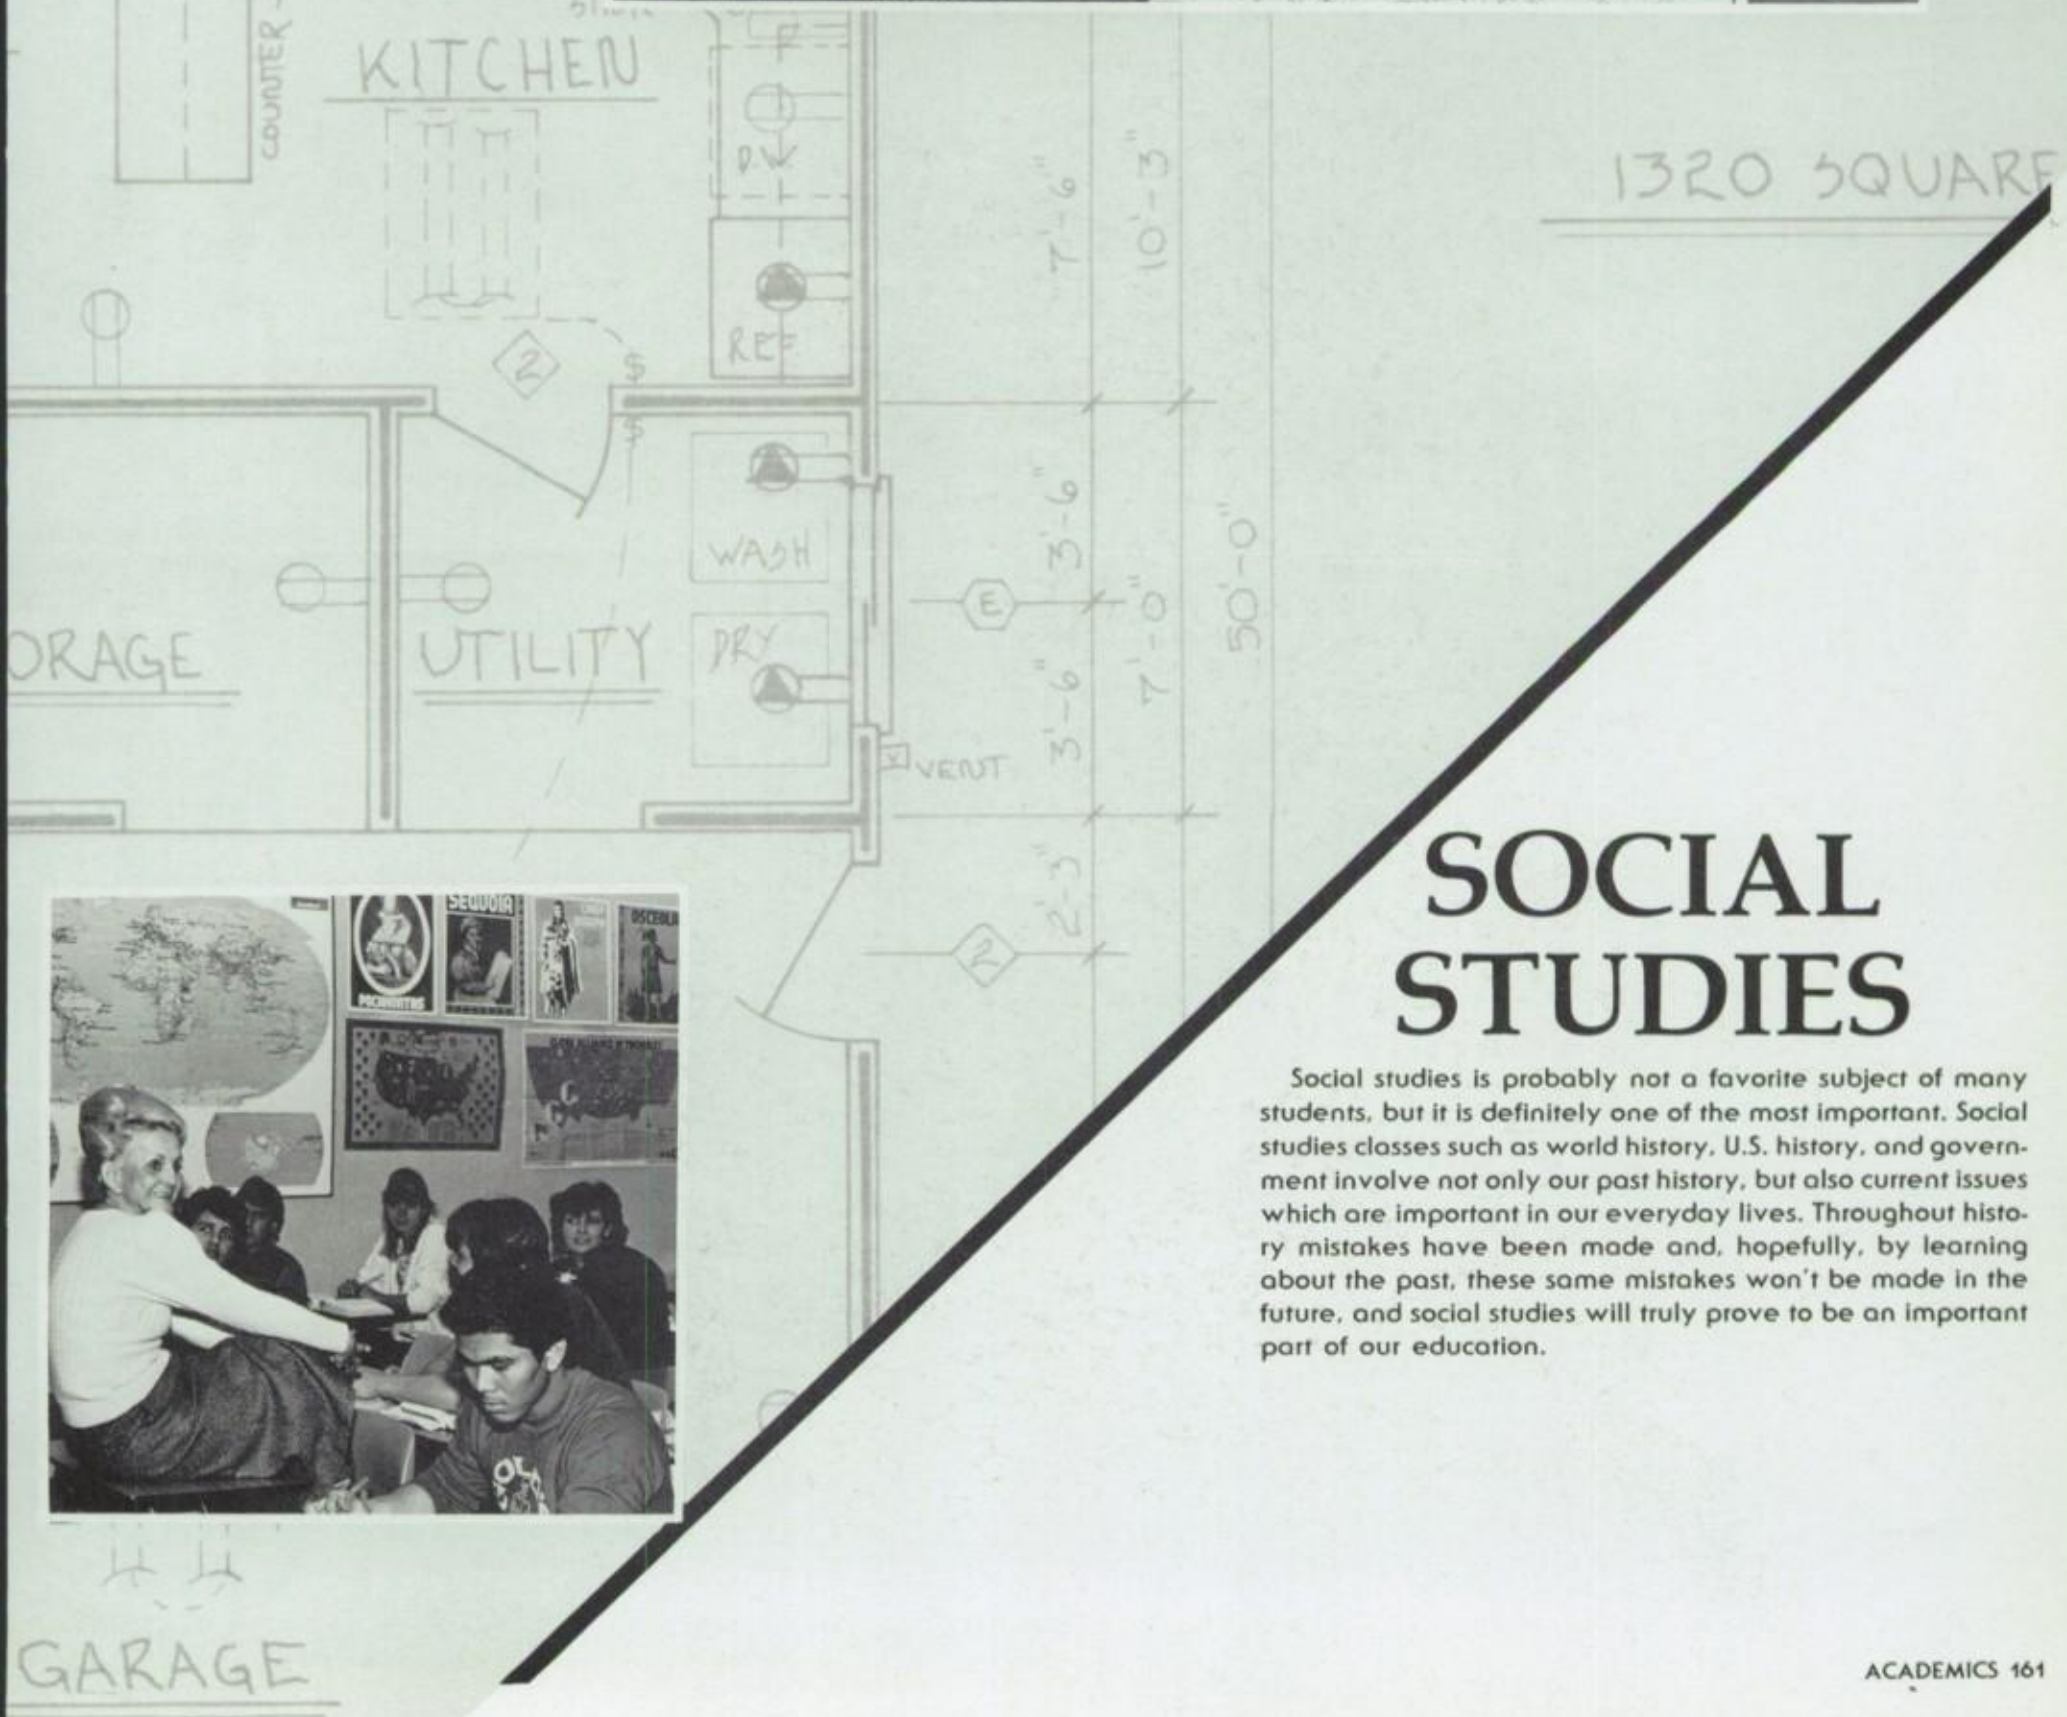

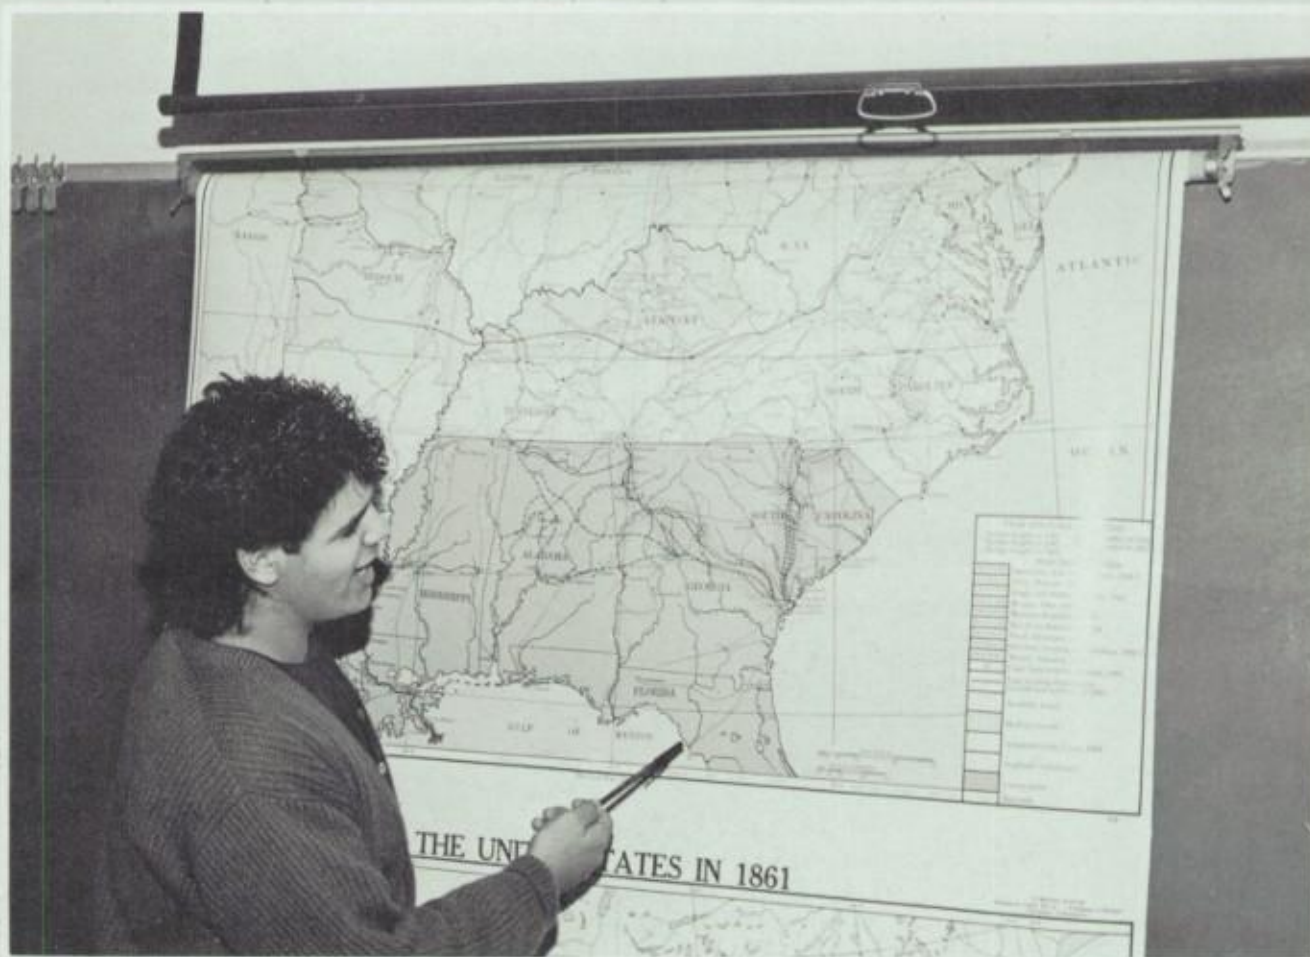

Where the physical education classes leave off, the health classes pick up. During the semester, students in health are taught about their bodies, the basics of personal hygiene, and how their bodies work as a few of the many subjects taught by the teachers and comprehended by the students.

VOCATIONAL

Vocational classes prepare students for future work after high school. These classes give students the opportunity to get hands on experience in a large variety of fields including metals, auto shop, wood shop and welding. By taking these classes, the students are given an edge in their competitive job markets over those who have no training in their field. With these experiences behind them, students may, in the future emerge as true professionals in their field.

FAMILY

SOCIAL STUDIES

Social studies is probably not a favorite subject of many students, but it is definitely one of the most important. Social studies classes such as world history, U.S. history, and government involve not only our past history, but also current issues which are important in our everyday lives. Throughout history mistakes have been made and, hopefully, by learning about the past, these same mistakes won't be made in the future, and social studies will truly prove to be an important part of our education.

FOOD FOR THOUGHT

Question: What new foods do you think the cafeteria should get?

Answer: I think they should make their salad selection bigger, make better sandwiches, because by the time lunch time comes around they are all ready soggy. The hamburgers need to have some more real meat in them. They also need to have more food for the people who like more natural foods. Granola bars would help. I wouldn't mind if they got Steak or lobster. Baked potatoes sound good to me too. Maybe a little more of Italian dishes and some Mexican, Chinese and American dishes would also be very nice. They also need to make the food look more appetizing, because the cafeteria really isn't. Really, All in all the food I would give a two star rating.

Eldorado Gets A Facelift

How do you improve the best high school in Las Vegas?

Where do you start? This is a tough assignment. When you review what we have and what we have to offer, what's left? You're right, just better looks. So, this year Eldorado received a face-lift. The entire outside of our school was painted from top to bottom. The traditional dull gray took on the appearance of a bright beige. Students that used to refer to our school as a "prison in appearance", now speak of Eldorado with re'newed pride in "their" school. The bright exterior has as its crowning touch, new graphic signs that proclaim our school as "The Home Of The Sundevils". The new appearance of our school has fostered a new pride among our students, and has created an atmosphere of belonging to an institution that is attractive and a cut above the rest. The f "Face-Lift" was a great success in helping to improve a school that we already feel is the best.

LET'S GIVE THEM OUR SUPPORT

Question: What do you think about sports such as soccer, baseball, track or golf, not getting a lot of support from groups such as the Cheerleaders, Student Council, Song-leaders, etc? Answer: I think that those sports should get as much support as the Football, Basketball, and Wrestling teams get. They work hard and they win a lot of their games. They are a part of our school. I think the school should get involved with these sports too.

Lisa Hanson

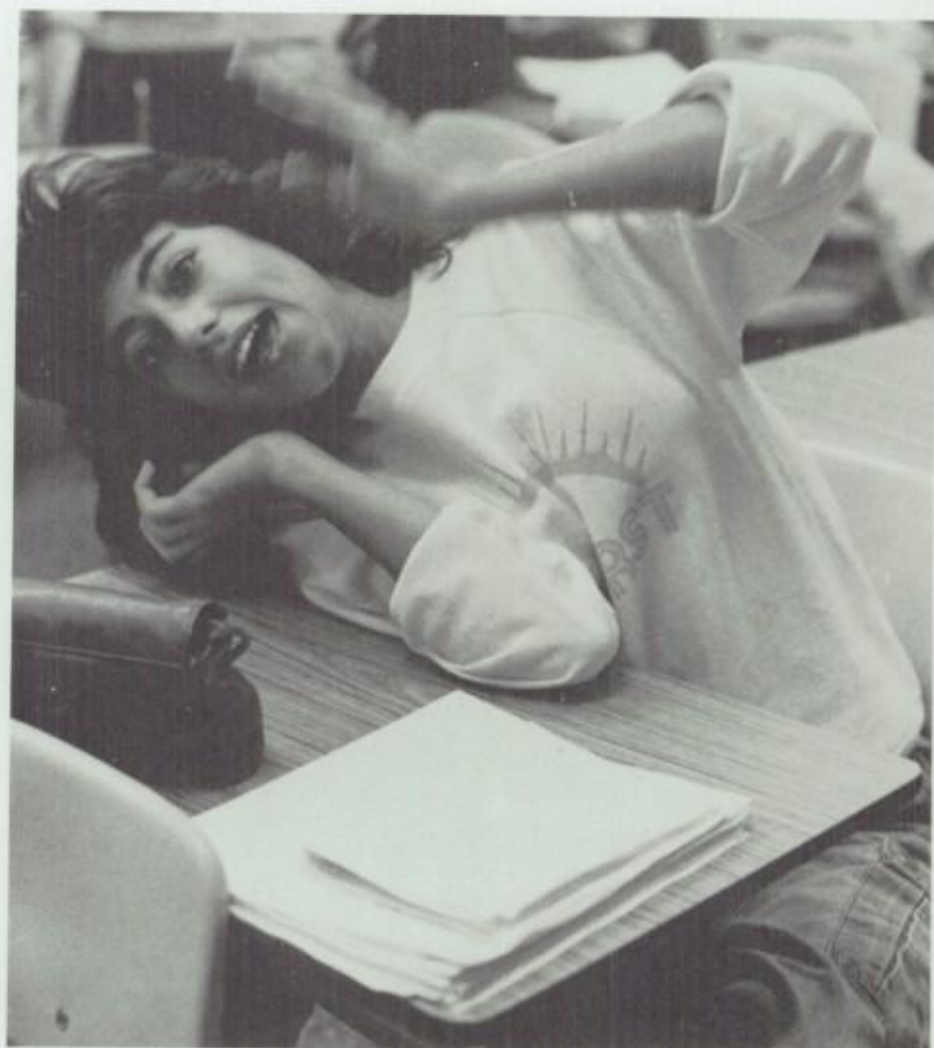

DO IT AGAIN SAM

Question: In what ways do you feel the school could be improved? Answer: I think that we could use more spirit, more dances, and better music in the cafeteria.

Gina Acocella

Over the years the administration as well as students of Eldorado high school have made many efforts to improve the schools image. Some of these efforts were to have the school be repainted. Others were to show interest of the accomplishments the students have made. Not everything can be done at one time but soon enough our school will be the best looking anywhere.

SHE CAN DO IT, IF HE CAN

QUESTION: How do you feel about girls playing guys' sports?

ANSWER: I think its just fine. If some girl wants to try it and can handle it then I think she should be able to do it.

Angela Feister

For many years girls have always had a great interest in participating in so called all male sports, such as football, Basketball and soccer. Today some of these girls are doing something about it. They are trying out. No one yet had made the team because the other male players as well as coaches feel the girl can't handle the pain or pressures. But someone someday will prove them very wrong. Who knows who it will be. It might be your little sister or the girl next door.

IS THERE A STUDENT IN THE HOUSE?

Question: How do you feel about the new in house suspension program? Answer: I feel it is too hard on people. The suspension shouldn't be as long if its In-House, because all that time working in one day makes you wish you could be in class. Being stuck in one place all day really gets to a person.

Triston Plunk

The Clark County School District has recently instituted a program into our high school. This new program is called, "In-House Suspension". From this new program students may be placed in In-House rather than be removed from school or be sent back to class. They are now sent to Coach Sherrill Stephens classroom to do nothing but homework all day long for approximately 3 days.

HERE COMES THE MAILMAN.

Question: Just this year our school began a new way of giving out failure notices, and that is to send them out by mail. Do you think the parents have become more aware of their child's problems in school from this new system? Answer: In about half the cases, it helps because the parents get to see the notice, and in the other half it doesn't matter because the students are home before the parents and they intercept the mail.

WHAT IS A SOPHOMORE?

When you first enter high school as a FRESHMAN, you are looked upon as a lost child in a place you don't belong. You go through the first few frantic and hectic weeks of being lost and confused. As a JUNIOR, you are proud to be someone who is an "almost SENIOR" and jealous of the person who is a senior. As a SENIOR - you are simply a senior - superior to all others. What IS a sophomore? You are no longer new to the school, or to the people, but; you don't have the status of a junior or senior. You are stuck in between. What is a Sophomore? A sophomore is someone who is preparing to be an "almost SENIOR" in the next year ahead.

SOPHOMORE SPIRIT

The Sophomore spirit is not to be rivaled!! This class of 1988 has enough spirit to perhaps make it the most involved class of Eldorado High School. Numbering over 400 sophomores, one of the largest classes ever, at one of the largest high schools in Nevada, these sophomores may very well be the most spirited class of Nevada. If the sophomores keep the class going - perhaps their Varsity Football Team will bring us to win the State Championship, as well as the Varsity Wrestling and Boys and Girl Basketball Teams, they will prove that Eldorado is the best high school and not someone to be reckoned with. The Sophomore Class spirit can carry Eldorado to the top - and it will!!

The anticipation of being a Junior slowly closes in as the school year ends and summer begins. Sophomores celebrate as half of their high school life is over. Although the Sophomores are finally approaching Junior Status, they do not yet realize that these were the best years of their life. Some students may think that the Sophomore class was worthless, but on the contrary they played an important roll at Eldorado. Over the week of Homecoming, they held various competitions and entered a float on gameday. During all the football games, they sold programs to help support the football teams. They also held the Annual Sweetheart Dance in February. The Sophomores of 1986 are definitely the leaders of tomorrow and they will always be remembered at Eldorado.

Just a little quiet discussion in the foods classroom.

THE FIRST YEAR

The Eldorado 85-86 Freshman Class will remember the date of August 29, the notorious registration day. On that very day approximately 500 students were welcomed into Eldorado High with the usual initiation, routine from the many upper-classmen who had felt that same pang of rejection just a mere year or two before. Since registration day however, the freshmen have proven to be true sports in the wide, wide world of high school. Their estatic spirit has shined throughout the year, turning the once thought "Feeble Freshmen" into one of the best freshmen classes Eldorado High has ever seen.

BEING A FRESHMAN

Remember when you were in the eighth grade, how you couldn't wait to be in high school? You would go back to your previous school and make fun of all your younger friends. Then you did it! You got into high school, Eldorado. For some unknown reason everyone seemed taller than you, but you didn't care, you were a big bad Freshmen. Until someone hits you over the head with a book and yells "FREDDY". You wiped away the tears, rubbed your head, and stood tall. You were still part of the best class ever, at least to you.

Our Class Spirit

Know one realized the Freshmen Class spirit until the first assembly, when they yelled their hearts out for that spirit stick. They didn't win, but considering how many of them there were and they didn't have Freshmen Cheerleaders yet, they did an incredibly good job. On the athletic end, the Freshmen participated in everything they could, including Football, Basketball, Volleyball, and various other sports. Having such a spirited Freshmen class could never hurt any school, at least not Eldorado.

Remembered Forever

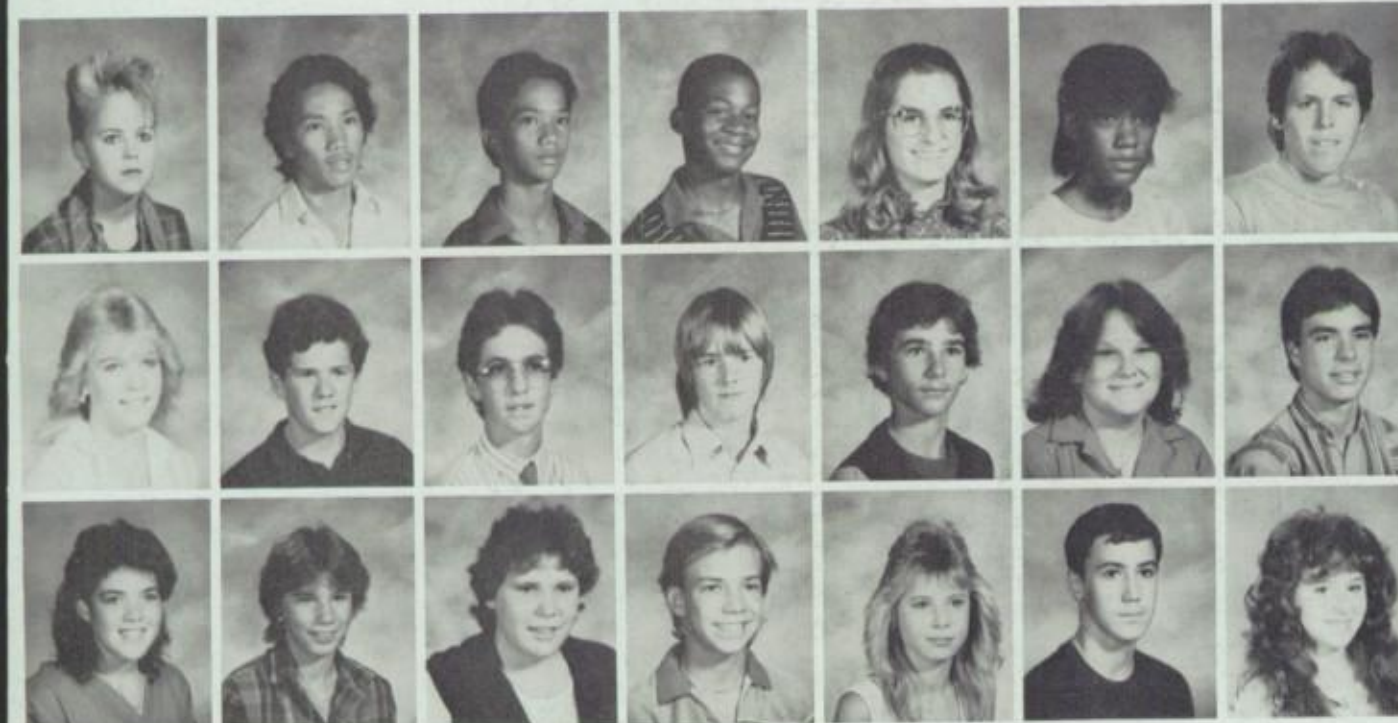

The Class of 89 will always be remembered at Eldorado High School for their spirit, enthusiasm, and overall uplifting of the school. The school will never forget their cheerful miles that were often seen and felt in the halls and classrooms.

LAST DAYS OF 9TH

At the beginning of the year Eldorado had a lot of new people running around the school. At first not everyone wanted to know a Freshman, but everyone did. Throughout the year friendships grew, until an everlasting bond was formed between Freshmen and the other classmen. The end of the year is almost here, Freshmen weep at the departure of their senior friends. "I'll miss you notes" are passed around in the classrooms. The annual signing of the Yearbook, and trading of phone numbers goes on in every corner of the school. Students carry three Yearbooks to their classes in an effort to get them signed before the last days of school. Then Exam days are here. The three dull days of taking nothing but exams. Everyone knows the end is here. Next year remember to treat the Freshmen as you were treated. Keep the traditions going!

For Those Who Dare

It is not the critic who counts,
Or how the strong man stumbled and fell,
Or where the doer of deeds could have done better.
The credit belongs to the man who is actually in the arena,
Whose face is marred by dust and sweat and blood,
Who strives valiantly,
Who errs and comes short again and again,
Who knows the great enthusiasms,
The great devotion,
And spends himself in a worthy cause;
And if he fails,
At least fail while daring greatly;
So that he'll never be with those cold and timid souls
Who know neither victory nor defeat.

Theodore Roosevelt

I wish all my friends (yes, both of you) all the success you deserve, which is to say, none. Seriously, though, I hope when we come back for our 10 Year Reunion that each of you has achieved great things. More importantly, I hope I've achieved even greater things, otherwise I would be jealous! Merry Graduation and Happy College Daze.

Centel People:

The framework for Nevada's breakthrough phone service.

To set new trends you have to set high standards. At Centel that's exactly what our people do. That's why soon Nevada will be the nation's first major metropolitan area where telephone service will be processed solely by digital switching systems, linked by fiber optics cable.

For you that means faster, clearer connections, greater telephone capabilities, and all for the lowest possible cost.

Centel takes pride in bringing Nevada the finest, most sophisticated phone service in the nation. But you should know it's the people behind Centel who see to it you receive that service at an affordable price.

Building a great phone service takes a solid framework. At Centel, that framework is our people.

THAT WAS THAT

85-86 was a fantastic year. It was a year when our country made great changes. The Space Shuttle Voyager made many miraculous returns to outer space to investigate the possibility of the creation of a new civilization. This year for the first time in twenty years the Chicago Bears made it to the Super Bowl. In this year, it was a dramatic one for Boxings well know world Heavy Weight Champion, Larry Holmes. He was champion since 1978, until this year when he sacrificed his title by unanimous decision to Michael Spinks. Where bigger battles are concerned, one major battle that was being fought is Nuclear Disarmament. No one wants to die at any age. Nuclear bombs cause us to think we will die. Soon. We don't want that and so we protest. Hopefully it will never happen. Life is to be cherished, not destroyed. Among the bad and the good there is tragic. There was a numerous amount of children reported missing this year. Some were found dead, some are not yet found. But there is still hope in our American hearts. We help one another in our times of need. Many, many beautiful, tragic and miraculous things happened this year. Not all can be told but all will be remembered. No other year will be the same, because 85-86, that was the year that was.

New England Patriots make Super Bowl XX

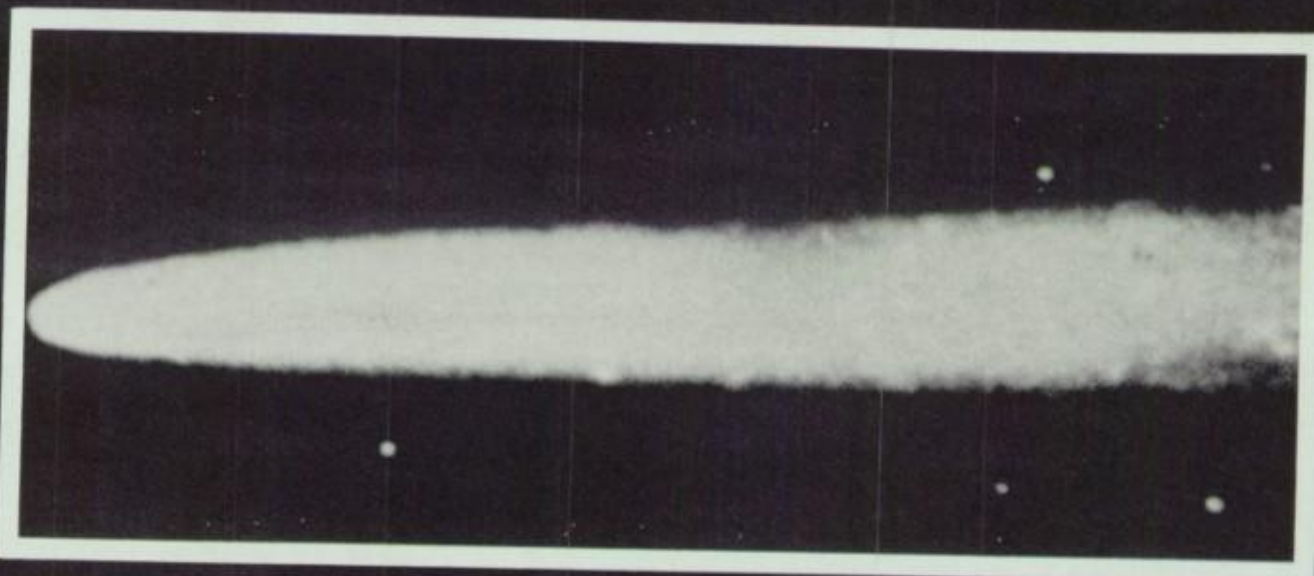

Sylvester Stallone

Live - Aide

1985-86 was a year full of many surprises and heart-breaking tragedies. Where the tragedies are concerned, one major heart-break was the death of a radio, video, and musical pop star, Rick Nelson. He and his band died in a horrible plane crash caused by a broken fuel line. This year was a fantastic one for Sylvester Stallone, whose movie "Rocky IV" was positioned in the top ten for a record breaking time. As for other parts of the world, that are in points of depression, American contributes its support through Live - Aid, an organization created to save lives and help African famine. For battles not so big as those of the needy, here stands Super Bowl XX. For the first time in twenty years, the New England Patriots have come to show that they are Super Bowl material. All in all, 85-86 was quite a year, no other year will be the same because, 85-86 ... that was the year that was.

THIS
YEARS'

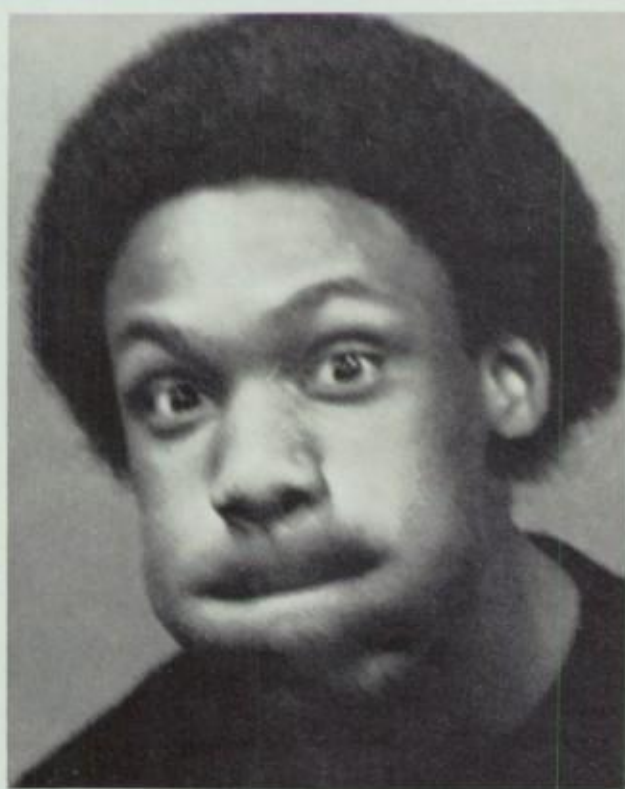

F

UNNNY
ACES

It all started quite normally before semester exams. Now
look what Happened!!!

The day ended with every student joining in on the fun.

1985-1986

Now that it's over . . .

1985-1986. Critics call it the year of death. The reasons for this are many. In the year of 1985 more people died from plane crashes than any other year. This year, terrorism peaked in foreign countries as terrorists continued to open fire and massacre innocent people by the hundreds, whether it was in an airport, crowded plaza, or open square.

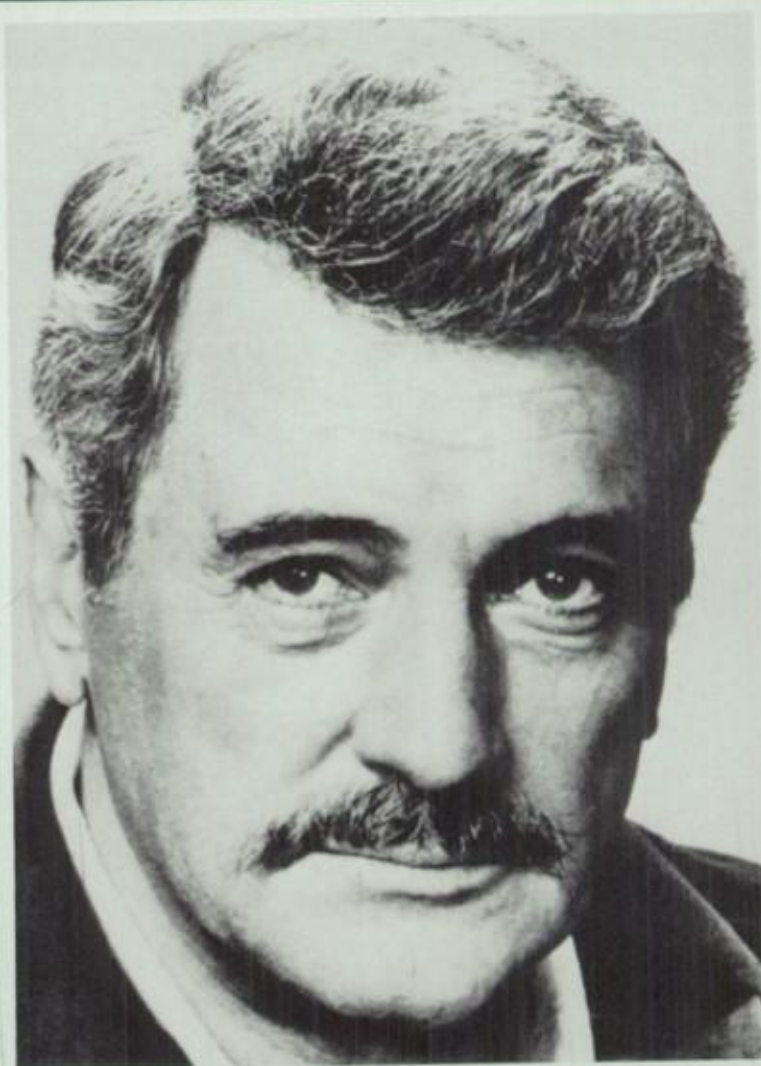

On the home front, Samantha Smith, the bright ten-year-old school girl who sent a letter to Yuri Andropov asking for a more peaceful world, perished in a plane crash. Her memory, unlike many others who also died in plane crashes this year, reigns on nationally, and internationally as the Soviet press portrays her smiling face on a stamp that will soon become a priceless collectors item.

Others, among the celebrity deceased are Eric Hillard ("Ricky") Nelson, the 45 year-old rock singer and former teen-age idol, who starred on TV's longest running family sitcom, "The Adventures of Ozzie and Harriet", and, Donna Reed, star of the Donna Reed show is more known for her role as Miss Ellie, mother to Jr. and Bobby, on the popular prime time show "Dallas".

On the happier side, born to Olivia Newton John, 37, and her 27 year old husband, Matt Lattanzi (Grease 2) was their daughter Chole, weighing 6lbs. 8oz. Marriage also seemed to be high on the list as stars as big as Simon Le Bon (Duran Duran), Steven Spielberg (Director and Producer), and Bruce "The Boss" Springstein tied the knot. And last but not least, to kick off the new year, George Burns celebrated his 90th birthday.

To mark the anniversary of the death of Martin Luther King, January 20 was declared a holiday, and 29 states proceeded to close schools, federal offices, and followed that with a week of celebration and ceremonies as thousands gathered to march as King once did.

Should we Rejoice or Mourn?

PERIOD OF CONTRASTS AND CONFLICTS

1985-86: A period of contrasts and conflicts. This year the lady liberty celebrated her 100th birthday, for her birthday present she received a face - lift. President Reagan has talks of a new defense program. On the other side of the world, the blacks of South Africa are suffering from Apartheid. This years mind boggling and shattering events were the arrival of Halleys Comet and the big fight between the Pepsi- Cola and Coca - Cola bottling companies. Also this year for the first time in the world, A teacher was sent into space with the Space Shuttle Challenger. 75 seconds into lift-off, 9 miles into the air, it blew up, leaving nothing but debris. The teacher who went up was Christa McAuliffe. Four Palestinian terrorists hijacked the Italian cruise ship Achille Lauro while on a Mediterranean cruise. One American was killed. After the ship was released the Egyptian government agreed to return the hijackers to the PLO. However, the hijackers were intercepted by American jets as they were flown out of Egypt and returned to Italy to stand trial.

Upper Left: Bruce Springsteen, "the Boss", with his unique gravel-voice style, set the music tempo of the 80's.

Upper Right: The year 1985 brought the tenth anniversary of the fall of Saigon celebrated at the Viet-Nam War Memorial in Washington D.C. The Memorial is the symbol of the patriotic sacrifice of those 58,000 Americans who died in Viet-Nam and would be forgotten except for this memorial.

1985-86 "THE DECISIVE MOMENT"

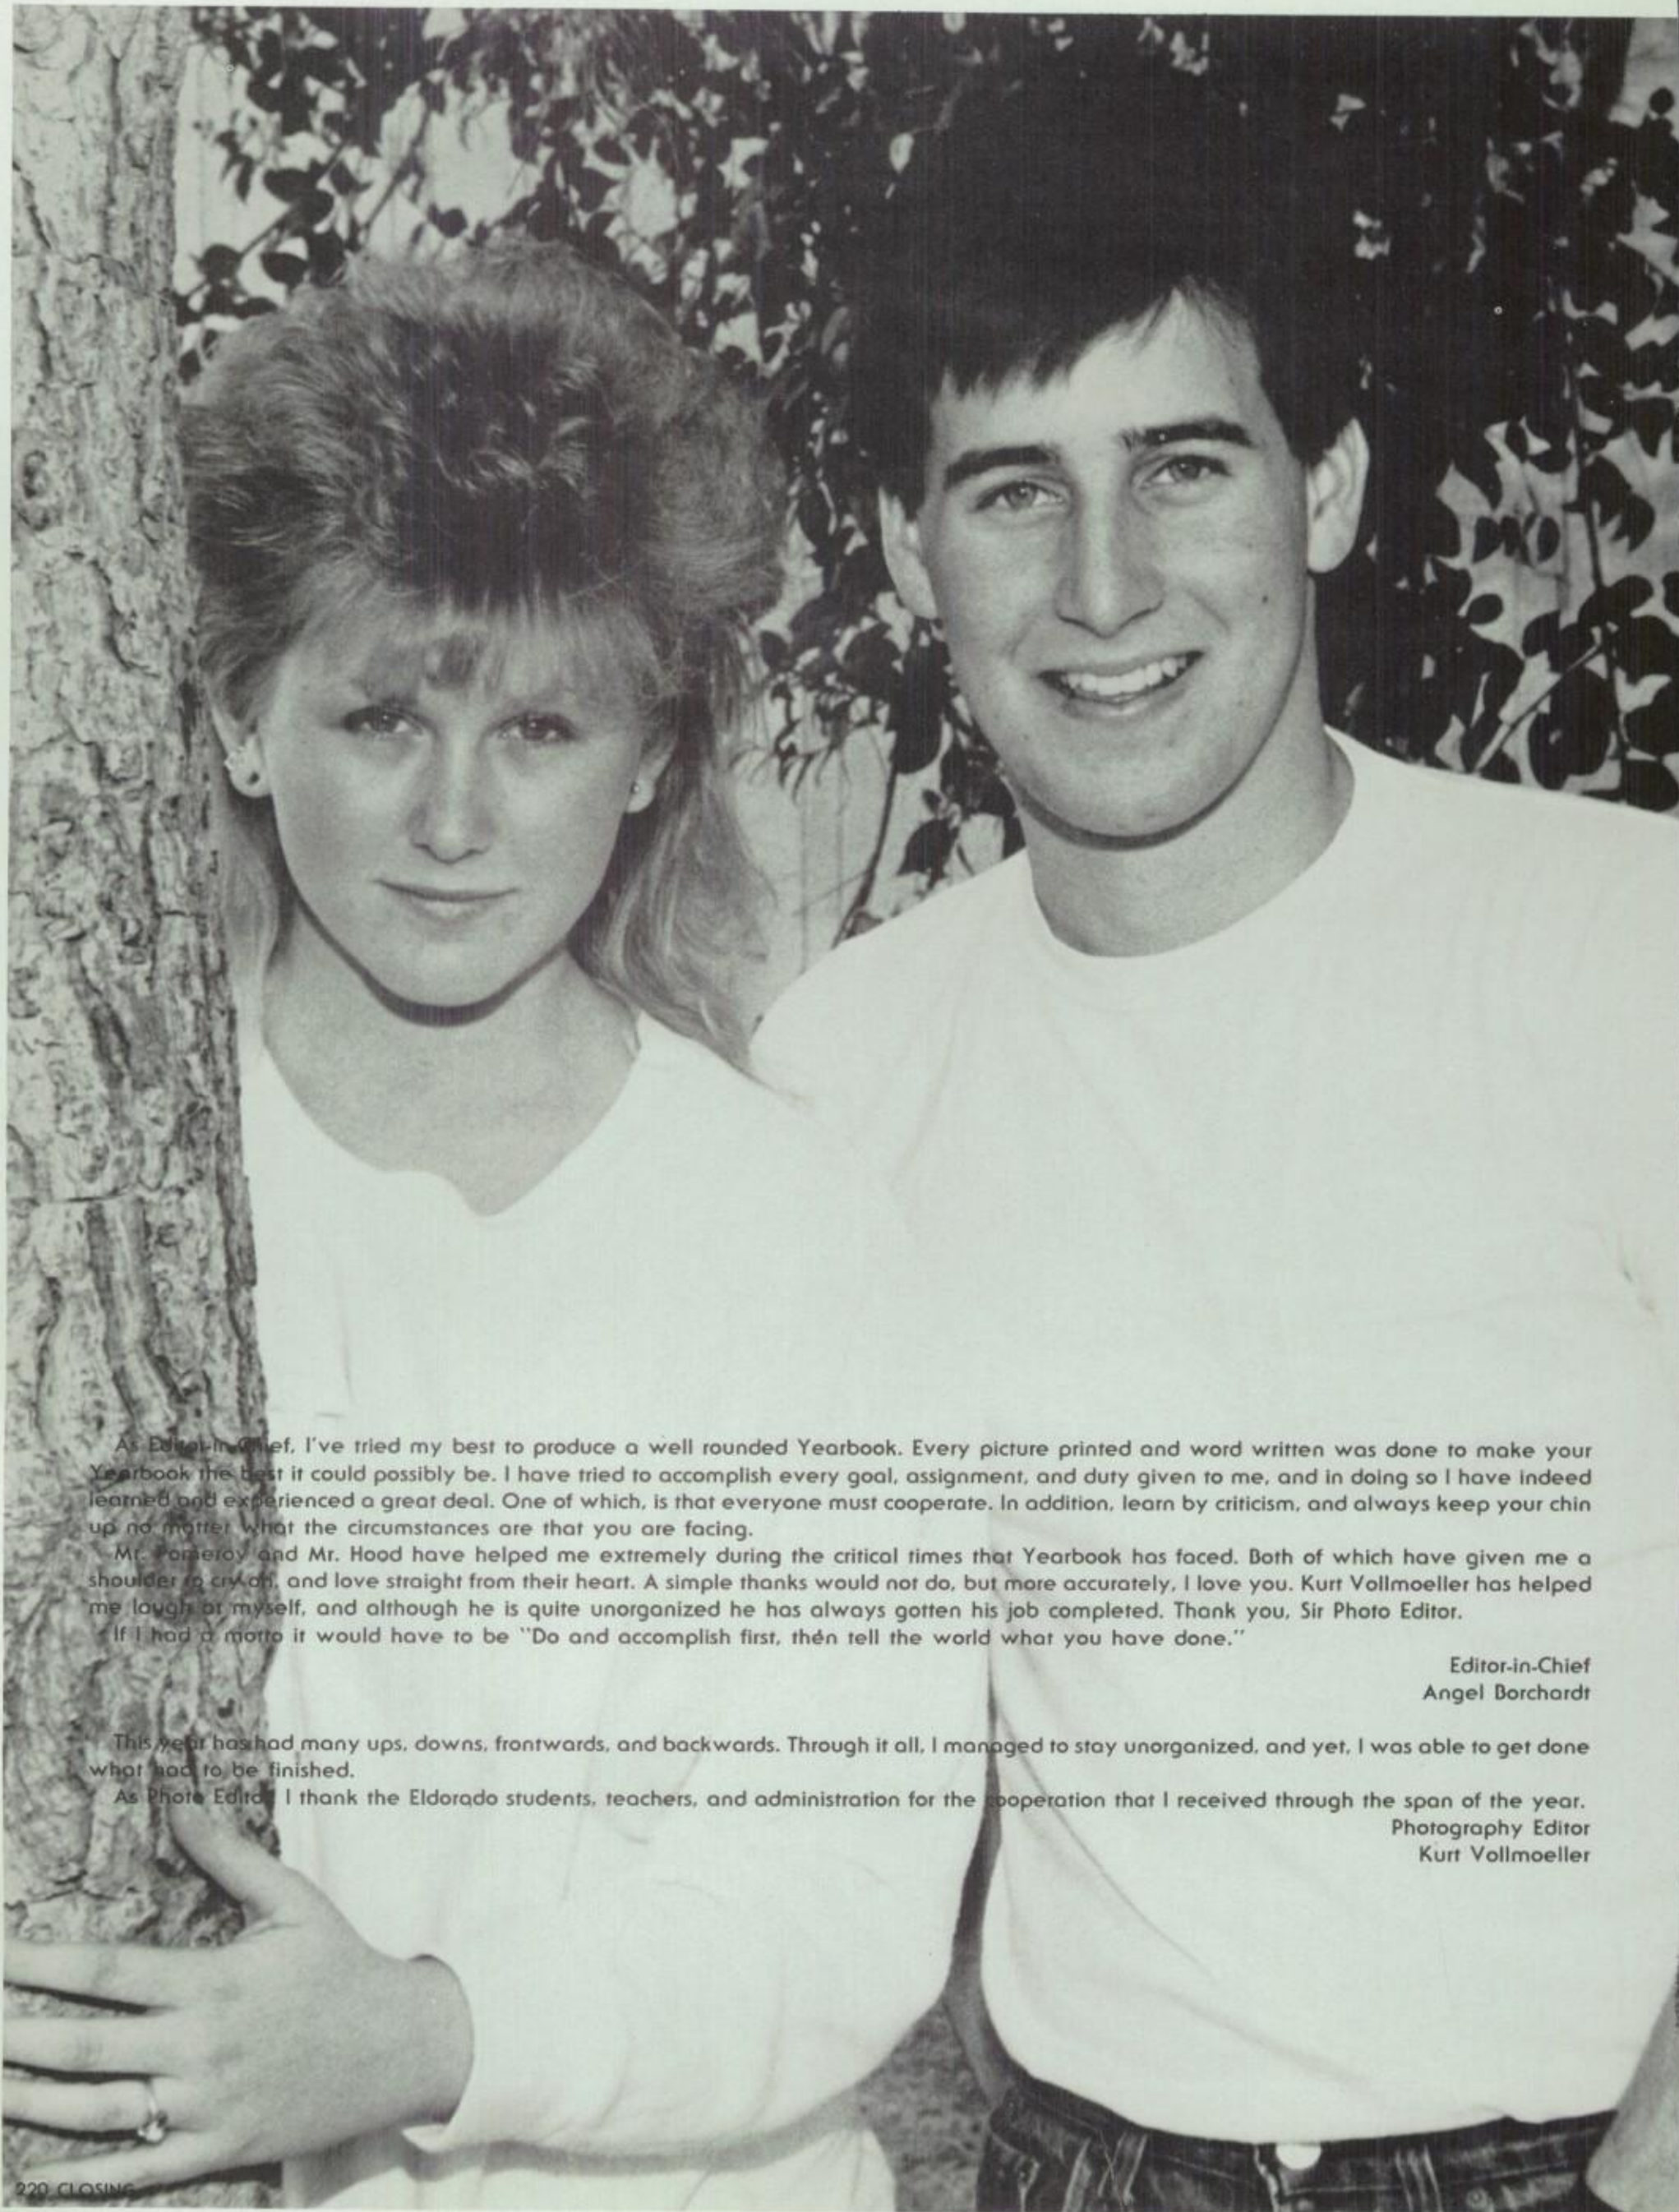

Upper Left: The explosion of the space shuttle *Challenger* brought the first in-flight disaster in the 56 manned U.S. Space missions. All seven crew members were killed, including Christa McAuliffe, a New Hampshire teacher, scheduled to be the first teacher in space.

Lower Left: BEAR's quarterback Jim McMahon is with kicker Kevin Butler on the sidelines in Super Bowl XX, where the Bears beat the Patriots 46-10.

Center Right: Rescuers work to save victims of the South American mud-slides.

Lower Right: The Mexico City Earthquakes mobilized a massive aid effort with the United States providing goods and money through individual contributions.

As Editor-in-Chief, I've tried my best to produce a well rounded Yearbook. Every picture printed and word written was done to make your Yearbook the best it could possibly be. I have tried to accomplish every goal, assignment, and duty given to me, and in doing so I have indeed learned and experienced a great deal. One of which, is that everyone must cooperate. In addition, learn by criticism, and always keep your chin up no matter what the circumstances are that you are facing.

Mr. Portero and Mr. Hood have helped me extremely during the critical times that Yearbook has faced. Both of which have given me a shoulder to cry on, and love straight from their heart. A simple thanks would not do, but more accurately, I love you. Kurt Vollmoeller has helped me laugh at myself, and although he is quite unorganized he has always gotten his job completed. Thank you, Sir Photo Editor.

If I had a motto it would have to be "Do and accomplish first, then tell the world what you have done."

Editor-in-Chief
Angel Borchardt

This year has had many ups, downs, frontwards, and backwards. Through it all, I managed to stay unorganized, and yet, I was able to get done what had to be finished.

As Photo Editor, I thank the Eldorado students, teachers, and administration for the cooperation that I received through the span of the year.
